House Committee Hits Family Housing, Enlisted Barracks, Officers Quarters

(Commissaries Under New Fire, P. 28)

THE House Appropriations Committee has aimed a multi-million dollar blow at Service morale.

Defense Department requests totalling more than \$28 million for family housing, enlisted barracks and bachelor officers quarters have been chopped from the fiscal '60 military construction program.

Also eliminated by the Committee are school, commissary, messhall, theatre and service club funds.

The Army was hardest hit, with a loss of \$18.5 million in the critical housing and morale-services area. The Navy lost \$7.7 million. The Air Force was cut about \$2 million.

At the same time, the Committee criticized the Pentagon's overall family housing program, charging that Defense Department policies permit each of the Services to "do as they please."

The Appropriations group said "immediate steps" must be taken to "standardize family housing in and between the military Services wherever it is economically feasible and in a manner consistent with sound engineering principles."

In the past, the Defense Department has said many times that geographic

AF Clinics Fall Under Outside Attack:

Pentagon's Top Civilian Medical Official Sees Little Chance For DentiCare O.K.

(Editorial Comment, Page 10)

MONTGOMERY, ALABAMA

PROSPECTS of obtaining a dental care program for military families in 1960 are dim.

The tight military budget will prevent indorsement of the program by the Defense Department.

This was learned by THE JOURNAL in an interview here with Dr. Frank B. Berry, Assistant Secretary of Defense for Health and Medical.

A Pentagon proposal to establish a family dental program, similar to MediCare, was deferred this year pending action by the American Dental Association at its 100th anniversary meeting in New York City next month.

The Association withdrew support of

MALE NURSE BAN

Male nurses in the Army and Air Force—the Navy doesn't have any—feel that they are being discriminated against because of their sex. Under present laws, male military nurses cannot be appointed to Regular commissions—Page 21.

M/G Shoup Picked To Head Marines

Maj. Gen. David M. Shoup, Commanding General of the Marine Corps Recruit Depot at Parris Island, S. C., since May, will succeed General Randolph McC. Pate as Commandant of the Marine Corps.

This was announced by President Eisenhower on 12 August at Gettysburg.

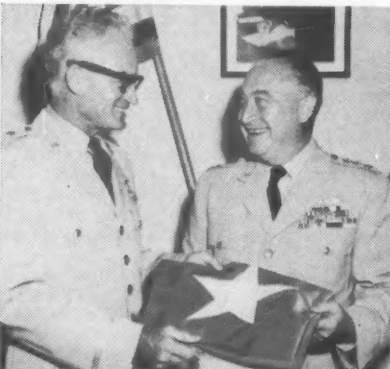

General Pate will complete four years' service as Commandant on 31 December.

General Shoup, who won the Medal of Honor as a colonel for his command of the 2d Marines, 2d Marine Division, at Betio in the Battle for Tarawa during WWII, was born 30 December 1904 at Battle Ground, Indiana.

He was graduated from De Pauw University in 1926. Having taken ROTC training, he was commissioned a second lieutenant in the Army Infantry Reserve, but served only one month before being commissioned as a Marine Corps second

Senator's A General

NEWLY promoted Brig. Gen. Barry M. Goldwater, a member of the U. S. Senate from Arizona, receives the official Air Force flag of his rank from Lt. Gen. Emmett O'Donnell, Deputy CofS for Personnel. General O'Donnell will assume four-star rank when he reports to Hawaii to command Pacific Air Forces.

"Tombstone" Plea Hits Rough Water

(President's Statement, Page 3)

(Secretary McElroy's Comments, Page 13)

PRESIDENT Eisenhower's personal appeal to Congress for an extension of the deadline on "tombstone" promotions has smashed into a stonewall of resistance on Capitol Hill.

The outlook was anything but bright

—Continued on page 3

New Money Needed For Pay Equalization

The Defense Department is making preparations to ask Congress early next year for supplemental appropriations to cover pay equalization on Armed Forces retired lists.

This was made known by Secretary of Defense McElroy at his last news conference.

The Secretary said he was advised by the Services that it would not be feasible to transfer funds from within the regular defense budget for this purpose.

THE JOURNAL publishes on Page 13 the full text of the Secretary's comments on this subject. (See Editorial, Page 10)

There is no question that the Administration is going to make this a priority matter immediately upon convening of the new Congress in January.

The President had said he was not yet persuaded that funds to equalize retired pay could not be found in current appropriations. He asked the Pentagon to study the problem.

Secretary McElroy checked into this again. He remains convinced, and so will advise the Chief Executive, that a supplemental appropriations request should be made.

General Eisenhower had said he would take such action if advised by Secretary McElroy that a special appropriation is necessary.

There could be a change in thinking this autumn or early winter, but as of the moment it seems likely that transfer funds will not be available and that legislative requests for authorization and appropriations will be sent to Capitol Hill next January.

Polaris Commanders Complete Plant Training Course

PROSPECTIVE skippers and executive officers of two Polaris submarines have finished an intensive training course at Lockheed Missiles and Space Division's Sunnyvale, Calif., plant. Left to right are LCdr. C. D. Grogean, Patrick Henry (SSB(N) 599) Exec.; LCdr. J. W. Russell, Theodore Roosevelt (SSB(N) 600) Exec.; Cdr. W. E. Simms, Roosevelt Captain; and Cdr. H. E. Shear, Patrick Henry Captain.

SecDef Must Make Report:

House Group Rejects Single-Service Space Role; Asks Medical Research Consolidation

The House Appropriations Committee believes that no single military Service ever will be given "exclusive control" of space exploration.

Such a step not only is "unlikely," the Committee says, but undesirable, as well. Space exploration, it adds, may not necessarily be confined to military jurisdiction.

This new statement, coupled with other actions of the Committee, could have dire meaning for the Air Force, according to the earlier prediction of a top general.

The Committee recited its views on space exploration in connection with a proposed consolidation of all military research in the field of aviation and space medicine.

In a related development, the purse-string group also stripped the Air Force

of construction funds for the Sentry and Midas satellite programs. Noting that the two programs have not been assigned to the Air Force, the Committee switched \$23.5 million in Air Force construction funds to the Defense Department's Advanced Research Projects Agency for the satellite programs. (See Page 11.)

An additional \$4 million in Air Force funds was chopped out as a result of the recommended consolidation of research activities in the field of aviation and space medicine.

Of the latter amount, \$2,277,000 had been earmarked for new medical laboratory facilities at Wright-Patterson AFB, Ohio, and \$1,825,000 for facilities at the Air University, Gunter AFB, Ala.

The Committee said the proposed facil-

—Continued on next page

SecDef Ordered To Report On Service Aviation Medicine Research Facilities

From first page—

ities at Wright-Patterson would be in addition to those already in existence and functioning at other Air Force and Naval installations, and the facilities at Gunter would not be needed if aviation medical facilities are consolidated.

The Secretary of Defense was asked to study the possible consolidation and to report back to the Committee by 15 January 1960, giving "particular attention to the question of new facilities requirements, including the consolidation of the requirements at a single major location with branch facilities as may be required."

Commenting on the problem of adapting the human body to flight and space environment, the Committee said this "is a common problem in which lines of demarcation between the Services have little significance. Furthermore, it does not seem likely, or desirable, that the exploration of space will be assigned to the exclusive control of any one Service or even solely to the military establishment."

The Committee said, "Eventual consolidation of military research in this field would do much more than produce savings in overhead and elimination of duplicate projects. It should also create a

more effective organization capable of applying important resources to those areas deserving special attention."

By ruling out the possibility of single-Service control of space exploration, the Committee focused new attention on a prediction made by Lt. Gen. Bernard A. Schriever, Commander, Air Research and Development Command.

In an appearance before the Senate Space Committee 23 April, General Schriever, then Commander of the Air Force Ballistic Missile Division, said the Air Force, unless it wins responsibility for space missions, "might very well end up being largely an air transport or logis-

tical service."

He told the Space Committee that the Air Force's two combat mission responsibilities—strategic air and air defense—will, by 1970, "be taken over, to a large extent, by what you would call space weapons systems—ballistics missiles, satellites, and space craft. This includes strategic reconnaissance and warning."

He said the Air Force "is the Service which has the responsibility under the National Security Act for developing, equipping, providing support, training, organizing units to carry out these particular combat missions and supplying these units to the unified and specified commands."

General Schriever said, "I feel strongly also that unless the Air Force is clearly given the responsibility to do these missions in space, we might very well end up being largely an air transport or logistical service."

Named For Stars

President Eisenhower on 7 August nominated 41 Navy captains for temporary promotion to the grade of rear admiral. They are:

B/C Power Takes No. 2

Air Defense Center Post

Brig. Gen. George W. Power is the Deputy CG of the Army Air Defense Center at Ft. Bliss, Tex. Commander of the 1st Guided Missile Brigade at Bliss since April 1958, he replaces Brig. Gen. John T. Snodgrass, assigned to Washington as Director of Air Defense and Special Weapons.

General Power was replaced by recently promoted Brig. Gen. George A. Carver, former Commander of the Army Training Center at Bliss.

Addis Ababa To Alabama

Lt. Col. Thomas P. Moran, 1616 Third Place, N.W., Center Point, Birmingham, Ala., has been assigned as chief of the Plans and Operations Division of the G-3 Section of IV Army Corps (Reserve). He recently completed a tour as Executive Officer of the Army Element MAAG in Addis Ababa, Ethiopia.

Colonel Moran is married to the former Miss Elizabeth Leymaster of Jacksonville, Fla. They have a son, Thomas, 6, and two daughters, Karen, 4, and Jeanne, 2.

Col. Downing Arrives In C.Z.

Col. Walter A. Downing, future U. S. Army Caribbean CofS has arrived in the Canal Zone from Puerto Rico, where he served as Commanding Officer, Antilles Command.

Col. William E. Eckles, USARCARIB Comptroller, has been Acting CofS.

L/C Allwine Is USARPAC G-4

Lt. Col. Frank N. Allwine, a recent graduate of the Army Logistics Management Center, Ft. Lee, Va., has been assigned as G-4, USARPAC, Ft. Shafter, Hawaii.

Colonel Allwine's assignment prior to attending USALMC was Executive Officer and Acting Deputy Chief, Purchasing Division, military clothing and textile supply agency, Philadelphia.

INTERCEPT!

Solar's creative missile team helps solve one of America's most vital defense problems

MISSILE DEFENSE involves the interception and destruction of a relatively small target travelling through space at over twenty thousand feet per second... within minutes after it is launched.

The government's Advanced Research Projects Agency has assigned Solar the task of working out a solution to an important part of this pressing military problem. This important new study contract,

awarded as a result of a unique new approach to missile defense devised by Solar's creative weapon systems team, will require the very best engineering imagination and know-how. It will result in an important forward step in missile science.

With years of active experience in the many phases of missile and space technology, Solar is particularly qualified to help solve your design, development and pro-

duction problems. For detailed information about Solar's proven problem-solving skills, write to Dept. G-140, Solar Aircraft Company, San Diego 12, California.

ENGINEERS WANTED! Challenging projects, unlimited opportunities with Solar. Write today!

Despite President's Action, "Tombstone" Extension Is Doubtful

From first page—

late this week, despite feverish Pentagon efforts to win Congressional support for the President's position.

Many factors are involved in the ultimate outcome. Chief among these is the rigid thumbs-down attitude adopted by Senator Howard W. Cannon (D-Nev.).

Here are the highlights in the fast-moving picture:

The President, in signing the Navy "Hump" bill 11 August issued a statement (as predicted in THE JOURNAL last week) supporting an extension of the "tombstone" promotion authority beyond 1 November.

Pentagon officials, seeking a Congressional foothold to obtain such an extension, turned to Chairman Richard B. Russell (D-Ga.) of the Senate Armed Services Committee. The Chairman quickly advised the Defense Department that he would be guided by the recommendations of Senator Cannon.

It was Senator Cannon who was the prime mover in the Senate's original action in repealing the "tombstone" authority, which has been on the statute books since 1925.

Quick Conference

A hastily-called conference was arranged between Senator Cannon and Assistant Secretary of Defense Charles C. Finucane, Pentagon manpower chief.

Following this conference on Wednesday morning 12 August, the day after the President's statement, Senator Cannon's office disclosed to THE JOURNAL that the Senator's position remains unchanged.

The failure to convince the Armed Services Committee member of the need to delay repeal of the "tombstone" authority appears to kill any immediate possibility for the "prompt" extension urged by the President.

This is particularly apparent in light of the House Armed Services Committee's announced intention not to initiate any action in the matter, but to follow the Senate's lead, inasmuch as the repeal language was drafted by the Senate.

With an effective roadblock already mounted in the Senate, there is little prospect that either House will now take action unless major support develops among the rank and file members of Congress.

Pentagon efforts to obtain favorable action were still continuing as THE JOURNAL went to press.

There still was faint hope that Senator Cannon—who holds the key to the problem—may yet be persuaded to change his mind, but no Pentagon official was optimistic about such an outcome.

In a side development, the Pentagon this week was rushing to completion a report on the Stratton-Huddleston Bill, introduced in the House last week to extend the "tombstone" authority to 2 July 1960. The report—certain to be "favorable"—was expected to be ready for transmittal to the House Armed Services Committee late this week.

Chances are, however, that it will receive no action by that group, unless the Senate acts first.

Retirements Rise

THE JOURNAL learned that between 40 and 45 officers already have applied for accelerated retirement in the Navy and three have submitted applications in the Marine Corps. There is evidence that many Sea Service officers are awaiting the action of continuation boards before making their final decision.

If Navy and Marine Corps officers feel that all chances for extension of the "tombstone" extension are dead, it can be anticipated that there will be a quick upswing in retirement applications.

In signing the Navy "Hump" bill, President Eisenhower said the 1 November deadline on "tombstone" promotions "poses a serious problem" for the officers involved, and noted that many of them are serving at sea or foreign duty stations. The President said he thinks "it would be only fair" to give eligible officers "an additional period of time during which to make what is for them a momentous decision." He added that he

hoped Congress would act "promptly" to extend the deadline.

Earlier, at a Pentagon news conference (see page 13), Secretary of Defense McElroy took a similar stand.

Representative Samuel S. Stratton (D-NY) expressed hope that the President's action, coupled with that of the Secretary of Defense, would boost chances of getting corrective legislation adopted.

Congressman Stratton and Representative George Huddleston, Jr., (D-Ala.), both members of the House Armed Services Committee, already had introduced legislation in the House to extend the deadline to 2 July 1960. They were supported in the move by a third Committee member, Representative L. Mendel Rivers (D-SC).

Mr. Stratton, who sparked the move and who originally registered the lone Congressional protest against the "tombstone" repeal action, said: "While the President did not endorse any specific additional period of time, I am delighted

that he has recognized the apparent fairness of an extension of the cut-off date and has realized, as Secretary McElroy already has said, that the abrupt cut-off contained in the Navy 'hump' legislation could work a real hardship on many Regular officers as well as Reserve officers who will not have adequate time in which to make the important decision about submitting their request for retirement."

The House Armed Services Committee member discussed the problem in the Congressional Record on the day preceding the President's action. He noted that the "serious situation" had been pointed up in the 8 August issue of THE JOURNAL. He inserted THE JOURNAL articles in the Record as further justification for Congressional support of the Stratton-Huddleston bill to extend the deadline.

He added, "With all of the assaults being directed in recent weeks toward military and Naval officers it does seem to me that they deserve as much reasonable consideration as we would extend to any other loyal American citizen."

President Urges "Tombstone" Delay

Here is the text of President Eisenhower's statement urging Congress to extend the deadline for repeal of the 34-year-old "tombstone" promotion authority:

I HAVE today signed HR 4413, an act to provide improved opportunity for promotion for certain officers in the Naval Service, and for other purposes.

One provision of the act repeals, effective 1 November 1959, a 1925 law which, as amended, requires upon their retirement, the honorary advancement to the next higher grade of Navy and Marine Corps officers who are specially commended for performance of duty in actual combat prior to 1 January 1947.

The 1 November deadline poses a serious problem for those active duty officers who are presently eligible for honorary promotion upon retirement. A number of these officers are, of course, on sea

duty or at stations abroad. In a very short time they must decide either to effect their retirement by the 1 November 1959 deadline or to continue on active service beyond that date in the hope that they will receive a regular promotion in due course.

This decision is made more difficult by the principal provisions of HR 4413 which will bring about the forced retirement of many officers in order to prevent a stagnation in the promotion of their juniors. I believe that it would be only fair to officers who, by their noteworthy combat service, have shown their dedication to our country that they be allowed an additional period of time during which to make what is for them a momentous decision.

Out of consideration for the service which these officers have rendered, I hope the Congress will promptly accord them such additional time.

Marine Chief

From first page—
lieutenant.

During WWII, he served in Iceland, New Zealand, Tarawa, Guadalcanal, New Georgia, Saipan, and Tinian, before returning to the States as Logistics Officer, Division of Plans and Policies at Marine Corps Headquarters.

Prior to assignment at Parris Island, he had been Marine Corps Inspector General and commanded the 1st Marine Division at Camp Pendleton, Calif., and the 3d Marine Division on Okinawa.

General Shoup is married to the former Zola DeHaven of Covington, Indiana. They have a daughter, Carolyn, now Mrs. Joel S. Watkins, and a son, Robert. His mother resides in Lakeland, Fla.

Col. Davie Leaves For Karachi Duty

Col. Robert N. Davie, former Base Commander at Pope AFB, N. C., leaves this month for Karachi, Pakistan, and new assignment as MAAG executive officer.

He will be accompanied by his wife, Anne, and son, Robert, Jr.

His successor at Pope is Col. John A. Cosgrove.

Colonel Bramlitt Retires

Col. Charles H. Bramlitt, USAF (MC), has retired after more than 20 years' service.

For the past two years he has been Deputy Director of Professional Services, Office of the USAF Surgeon General.

Colonels In Top Posts At Westover

Two recently assigned colonels have been named to top posts in the 57th Air Division at Westover AFB, Mass.

They are Col. Gordon F. Goyt, Vice-Commander of the 99th Bomb Wing, and Col. William R. Brown, assigned as Vice-Commander for Operations in the 4050th Air Refueling Wing.

Colonel Goyt succeeds Col. David C. Jolly, who will attend the Industrial War College at Ft. McNair, Washington, D. C.

Colonel Brown will take over the operations post from Lt. Col. George M. Richmond, present Vice-Commander. Colonel Richmond will remain on in the office as assistant to Colonel Brown.

The new 99th Bomb Wing Vice-Commander comes to Westover from Vandenberg AFB, Calif., where he had served for a year. Prior to that, he was Commander of the 817th Air Base Group at Pease AFB, N. H.

Colonel Brown was assigned to Westover after serving as senior advisor to the Oklahoma National Guard at Oklahoma City.

B/G Bond To Hamilton

Brig. Gen. Charles R. Bond, Jr., Commander of the 25th Air Division (SAGE) at McChord AFB, Wash., for the last 22 months, has been reassigned as commander of the 28th Air Division (Defense) with headquarters at Hamilton AFB, Calif.

Medal For Col. Bradley

COL. Francis X. Bradley is shown with his wife at ceremonies where Maj. Gen. Paul L. Freeman, Jr., Commandant of the Army Infantry School, Ft. Benning, Ga., presented him the Legion of Merit. The award was in recognition of service from 28 May, 1951, through 15 July, 1959, during which time Colonel Bradley served as Assistant Secretary of the General Staff, Department of the Army; Military Assistant to the Secretary of the Army, and Chief of the Doctrine Publications Office at The Infantry School. Colonel Bradley, who has retired after 22 years service, has joined the Martin Company, Baltimore, Md.

S.O. For 11 August Makes 29 Lt. Cols.

The following 29 Army majors were promoted to temporary lieutenant colonel in S.O. 158, effective 11 August. Where no branch is indicated, the new lieutenant colonel is an Infantry officer.

Col. Dyekman Named Textile Agency Deputy

Col. Ivan J. Dyekman has been named Deputy Executive Director of the Military Clothing and Textile Supply Agency and Philadelphia Quartermaster Depot, it is announced by Maj. Gen. Webster Anderson, USA, Executive Director.

Prior to his assignment to MC&TSA-PQMD, Colonel Dyekman served as Fifth Army Quartermaster in Chicago.

Colonel Dyekman is married to the former Annabelle Hutchinson of Salida, Colorado. They have two children, Mary Ann, 23, and Ivan Joe, Jr., 25. The family resides at 314 Pleasant Drive, Woodcrest, Haddonfield, N. J.

New A. G. In Japan

Lt. Col. David C. Turner has been appointed Adjutant General, Headquarters, U. S. Army Japan, replacing Col. Paul A. Bucha, reassigned to the U. S. Army Publications Center, St. Louis.

Former Deputy Adjutant General, Colonel Turner is accompanied on his present overseas tour by his wife, Fay, and their two daughters, Susan, 7, and Jan Ellen, 3.

Capt. Wever At P. I.

Woman Marine Capt. Donrue Wever has reported aboard the East Coast Marine Corps Recruit Depot at Parris Island, S. C., to become Commanding Officer, Permanent Personnel Company, Woman Recruit Training Battalion.

She arrived there from the Sixth Marine Corps Reserve and Recruitment District, Atlanta, where she served as Woman Officer Selection Officer.

Jumping Doctors

One of the Army's highest level Clubs has 35 members and 10 more are training for admission.

Members are all physicians who wear, in addition to Medical Corps insignia, the spread wings of a fully-qualified paratrooper.

These are the physicians who fly with the 82d and 101st Airborne Divisions, jump with these two first-line STRAC units and care for both the men and their families.

Included among the jumping doctors are three physicians stationed with the 8th Infantry Division in Germany.

All are volunteers. They must complete the full cycle of paratroop training and make at least four proficiency jumps a year.

They jump each time their unit jumps. Senior airborne physician in the Army is Lt. Col. Thomas H. Lane, XVIII Airborne Corps Surgeon, Ft. Bragg, N. C. He has been selected for promotion to full colonel. His organization is the command arm of STRAC, of which the 82d and 101st Airborne Divisions at Ft. Bragg and Ft. Campbell, Ky, are the two airborne units.

Next in seniority are Lt. Col. Spencer Reid, 101st Airborne Division Surgeon and Maj. Richard Coppedge, 82d Airborne Division Surgeon.

Within each of the airborne divisions, the medical service is divided into one medical company and a medical section of platoon size within each of the five Battle Groups.

Medical sections are usually staffed with at least two physicians and one Medical Service Corps officer.

In selecting paratroop physicians, the Army Surgeon General's Office says that it tries to choose individuals who have had specialized surgical and other specialty training before they entered the Service.

The reason for this, it is explained, is that these physicians will be called upon not only to give initial treatment, but often to give definitive care to airborne personnel in battle.

Since evacuation of the injured to rear hospitals or mobile surgical units will be virtually impossible during many operations behind enemy lines, some of the most delicate and advanced medical and surgical procedures will have to be given at the front lines by the airborne doctors.

Officials note, however, that because airborne physicians must all be volunteers, the primary requisites are willingness and the ability to qualify as a paratrooper.

With the 8th Infantry Division are: Capt. Richard H. Bailey, 1st Airborne Battle Group, 505th Infantry; and Captains Edward R. Burka and Llewellyn J. Legters, 1st Airborne Battle Group, 504th Infantry.

Two Join A. G. Board

The Adjutant General's Board, Combat Development Agency for The Adjutant General, has welcomed two new arrivals at Ft. Benjamin Harrison, Ind., Lieutenant Colonels Wilbert D. Meeks and Vernon R. Rider, both are recent graduates of the Command and General Staff College.

Colonel Meeks is assigned to the Special Projects Office. He is married to the former Louise Cole. They have three children, Sandra, Patricia and Wilbert.

Colonel Rider is assigned as a Management Analyst with the Automatic Data Processing Section. He and his wife Betty, have a son, Larry, and daughter, Suzanne.

Maj. Barclay Reports To Texas Post

Maj. Robert E. Barclay has been assigned to the Plans and Programs Branch of Fourth Army's G-1 Section at Fort Sam Houston, Tex. He held the position of Assistant G-1 at Ft. Chaffee, Ark., until June when that post was inactivated.

Major Barclay lives at 227 Artemis Avenue, San Antonio, with his wife, Eileen, and their son, William, 12.

15 Physicians, One Chaplain Make Col.

The Army in S. O. 157, effective 10 August, promoted 15 MC lieutenant colonels and Chaplain Joseph S. Chmielewski to temporary colonel. The promotions went through No. 77 on the MC and No. 4 on the list of Chaplains in Circular 624-35, dated 1 October 1958.

The new MC colonels:

Bauer, Albert J
Brennan, James T
Jennings, Hal B, Jr
Lane, Thomas H
Lull, George F, Jr
McNerney, Jules J
Offutt, Harry D, Jr
Pickhardt, W L
Psaki, Raoul C, Jr
Ratcliffe, Harold E
Rogers, Frank B
Sprinz, Helmuth
Steele, Lowell R
Tenery, John H
Weeks, Bertram A

Col. Snyder Deputy At Ordnance School

Col. Harry A. Snyder has been named Assistant Commandant of the Army Ordnance School at Aberdeen Proving Ground, Md.

A 1939 graduate of Lehigh University, where he earned his degree in chemical engineering and his commission via the ROTC, Colonel Snyder had served in the Office of Chief of Ordnance for four years before reporting to Aberdeen last June.

Colonel Snyder, a graduate of the Command and General Staff College, and the Army War College, is married to the former Miss Margaret Richards, daughter of Col. and Mrs. Frank Richards, USA-Ret., 4038 Powers Ferry Rd., Atlanta, Ga.

Colonel Snyder and Mrs. Snyder have two children, Alan, 13, and Sara, 10.

7 August Rank Set For 50 Army Captains

The Army, in Special Orders 156, has promoted 50 first lieutenants to temporary captain, with date of rank from 7 August.

Those promoted include lieutenants through sequence number 1853, Army Promotion List, Circular 624-43, dated 27 January 1959.

Col. Pongonis Alaska A.G.

Col. Joseph A. Pongonis has been named Adjutant General of U. S. Army, Alaska, succeeding Col. Alfred H. Prahinski, assigned to Ft. Lewis, Wash.

The new Adjutant General comes to Alaska from duty as A.G. of Army Air Defense Headquarters, Colorado Springs, Colo.

Commands Army Hq. Japan

Maj. David P. Midgett has been appointed Headquarters Commandant, U. S. Army Japan, and Commanding Officer, Special Troops, replacing Lieutenant Colonel Albert V. Jones, who is being reassigned to Fort Bliss Texas.

L/C Marks Leaves 504th

Lt. Col. Sidney Marks, Commander of the 1st Battle Group, 504th Infantry, 8th Infantry Division in Germany, has been reassigned to G-4 Section of Seventh Army Headquarters at Stuttgart.

AUTOMATIC SOLDIERS' DEPOSITS AUTHORIZED

An objective long sought with regard to the Soldiers' Deposit System has become a reality.

The Army on 1 August enlarged the program to include deposits by payroll deduction. Circular 35-88 provides that enlisted members may authorize local finance officers to make collections from their regular monthly military pay vouchers. The Army said that the payroll deduction system should result in more systematic savings by reason of its automatic monthly collection feature.

Five Warrants Go Up In Special Orders 156

Five chief warrant officers have been promoted from CWO W-3 to temporary CWO W-4 in Army Special Orders 156, effective 7 August.

Those promoted include warrant officers through sequence number 177 on Circular 624-54, dated 2 June: Stephen F. Bourdeau, AGC; Robert L. Hauser, AGC; Elzie R. Nelson, AGC; Willard L. North, ORDC; and Leonard R. Weitzel, Jr, CE.

Col. Wolfson At Totten After 8th Army Service

Col. Jack D. Wolfson, has been named Assistant C of S, Logistics and Supply for the Army Air Defense Command 1st Region at Totten, N. Y., under Maj. Gen. Robert W. Berry.

Col. Wolfson had been Eighth Army Plans Officer for the Logistics and Supply Section.

Col. Wolfson is married to the former Hilda Coplon of Orlando, Fla. They and their daughter, Eva Leah, live at 137 Weaver Avenue, Fort Totten.

Decorated At Monroe

COL. Lyman D. Bothwell, right, receives the Legion of Merit (First Oak Leaf Cluster) from General Bruce C. Clarke, Commander, during retirement ceremonies at Ft. Monroe, Va., headquarters of the Continental Air Command.

Colonel Bothwell was Deputy C of S for Intelligence there from June 1957 until retirement 31 July.

He plans a trip to Bermuda and Mexico before taking up residence in Washington, D. C.

Here Are Members On Commander Board

This is the membership of the selection board convened 11 August 1959 to consider eligible Commanders of the Line for promotion to Captain.

The board is expected to be in session about four weeks.

VAdm. W. L. Rees, President—RAdms. R. S. Benson, W. O. Burch, jr., T. B.

Clark, L. D. Coates, J. E. Dodson, W. E. Ellis, E. C. Holtzworth, W. E. Howard, jr., M. H. Hubbard, jr., T. R. Kurtz, jr., J. W. McElroy, USNR, A. M. Morgan, L. M. Mustin, E. J. O'Donnell, B. N. Rittenhouse, jr.

Capt. J. B. Howland is Recorder; LCdr. J. Fitzgerald, Assistant Recorder; CWO-2 W. S. Jones, Assistant Recorder.

Marine Corps Triples LDO Strength; Expands WO Program;

The Marine Corps' Limited Duty Officer strength will more than triple—147 to 460—by the end of Fiscal Year 1962, and the number of Warrant Officers will jump 100 to 1,300.

The expanding LDO/WO program calls for a further look at the warrant set-up as the plan progresses with a possible long-range warrant structure of 1,675.

The decision to enlarge the LDO/WO program was made to provide the Corps with a body of officers capable of keeping pace with the increasing complexity of modern-day weapons and equipment, and to provide a ladder of advancement for those who continually sharpen their technical skills.

Headquarters plans to increase the number of LDO categories from nine to 19 and the number of WO categories from 33 to 49.

Among the new areas in which LDO's will receive appointments, with an outlet to the rank of lieutenant colonel, are the fields of administration, ordnance, financial accounting, air control and informational services.

Included in the new group of MOS' to be assigned to WO's are specialties in ordnance, explosives and disposal, missile maintenance, unit supply, financial accounting, correctional services, aviation maintenance, air support control, air defense control, ground control approach, airborne CIC, bulk fuel systems and flight equipment.

Headquarters plans to appoint no more

than 83 temporary LDO's in the ranks of captain and first lieutenant under a one-shot selection system in FY '60. These appointments will be made from the ranks of present temporary officers and former temporaries now serving as warrant officers and enlisted men.

New appointments to permanent LDO eventually will be made from WO ranks. The position of temporary LDO's on the permanent LDO lineal list will be made to preclude their being senior to former contemporaries who have been selected for permanent appointment.

LDO applicants will be tested at the local level with the local boards and commanding officers basing their recommendations to Headquarters on demonstrated practical experience of the individual.

An important feature of the new LDO plan is that temporary officers appointed to temporary LDO no longer will be subject to provisions of the policy requiring retirement or reversion to permanent status upon retirement.

Temporary LDO's who twice fail of selection to the next higher rank will be required to retire or revert to permanent grade.

The Warrant Plan

The new WO program sets up new eligibility requirements. Selection from enlisted ranks will be restricted to E-4's and above with six to eight years' service. If waivers are recommended by commanding officers, outstanding Marines with nine to 10 years' service will be considered.

The revised program gradually will be phased in during Fiscal Years 1960, 1961 and 1962. During this three-year period, Headquarters said, a significant percentage of warrants will be selected under existing criteria, i.e., from those having up to 19½ years' service.

Selection of warrants from the ranks of enlisted men in the six to eight year category will be based on the growth potential of the individual. Applicants will be required to indicate a preference for a specific field. However, actual assignment of MOS' will be made by selection boards based on evaluation of the individual's service record.

Successful WO candidates will be given a short basic officer indoctrination course of about three to four months, followed by about a year of technical training in the individual's specialty. Headquarters said that in the majority of cases warrant selectees will be sent to Army, Navy and Air Force schools.

If an Armed Forces course in a particular specialty does not exist, the candidate will be sent to a civilian institution.

Appointment of warrant selectees will be contingent upon successful completion of the basic officers course. If a selected warrant then fails to complete required technical schooling, his appointment will be revoked.

Rule For Former Officers

Former officers, or those currently serving as commissioned officers, will not be required to attend either school if appointment to warrant rank.

Reservists on active duty will be eligible to apply for warrant appointments upon completion of their obligated active duty or at any time while serving on EAD or SWAG extension, ending at completion of 14 years active duty service.

During FY '60 selection of warrants will be made in two phases. Under the first phase, a selection board meets in

L/C Bishop To Quantico

Woman Marine Lt. Col. Barbara J. Bishop, Commanding Officer of the Woman Recruit Training Battalion, at the Parris Island, S. C., East Coast Marine Corps Recruit Depot, has departed to assume new duties at Marine Corps Schools, Quantico, Va.

Maj. Doris V. Kleberger, Executive Officer of Woman Recruit Training Battalion, will fill the post as Commanding Officer pending the arrival of Colonel Bishop's replacement, Lt. Col. Pauline B. Beckley.

B/G Weede Heads Major Selections

A Marine Corps selection board headed by Brig. Gen. George Weede, convened 10 August to choose active duty captains for permanent major.

General Weede is Commander of the Recruit Training Depot, San Diego.

The promotion zone begins with Capt. George H. Grimes, number 222 on the combined lineal list of 1 January 1959. It ends with Capt. Joseph C. Shea, jr., number 380.

The board, expected to be in session from three to four weeks, is authorized to select 110 unrestricted officers, eight supply duty officers and 14 limited duty officers.

New E & P For Marine Gazette

Lt. Col. T. N. Greene has succeeded Lt. Col. J. A. Crown as Editor and Publisher of The Marine Corps Gazette.

Colonel Crown will go to AirFMFPac at El Toro, Calif. Colonel Greene was graduated from Senior School and the first Marine Corps Atomic Weapons Employment Course this year.

Last March, Colonel Greene was presented a George Washington Honor Medal and the \$1,000 first prize in the 1958 Freedoms Foundation Armed Forces Letter Contest.

Command Changes At Parris Island

Two major commands changed hands at the Parris Island, S. C., East Coast Marine Corps Recruit Depot recently when Lt. Col. O. F. Peatross, former Executive Officer of the Recruit Training Regiment, was ordered to report for instruction to the Senior School, Marine Corps Schools, Quantico, Va.

Replacing Colonel Peatross is Lt. Col. R. S. Johnson, former Commanding Officer of the Third Recruit Training Battalion.

Colonel Johnson's Executive Officer in the Third Battalion, Maj. J. S. Heitzler, subsequently became the commanding officer.

Under the command of Colonel Johnson, the Third Battalion recorded the largest Depot contributions to Navy Relief and Red Cross drives, produced two Drill Instructors of the Quarter, and had a 93 per cent permanent personnel qualification on the rifle range.

New Marine C.O. At Grosse Ile NAS

Lt. Col. Thomas B. Wood, Marine Air Reserve Training Detachment, NAS, Grosse Ile, Mich., relinquished command recently and departed for Quantico, Va., where he will attend the Senior Course in Amphibious Warfare at the Marine Corps Schools.

Colonel Wood and his wife, Marjorie, are the parents of Thomas, jr., 14; Theresa, 13; Tina Marie, 11; Andrew, 8; Timothy, 3 months.

Lt. Col. John J. Windsor will come to Grosse Ile from Marine Corps Schools, Quantico, to succeed Colonel Wood.

47 Hospital Corpsmen Win Commissions

The Navy has selected 47 Hospital Corpsmen for appointment to permanent ensign in the Medical Service Corps. The selectees will report to the Naval Schools Command, Newport, R. I., 24 September, for a seven-week officer orientation course.

The appointments will carry effective dates of rank from 29 June 1959.

Here is an alphabetical list of those chosen for Regular commissions.

Zimmerman, Lonnie V.

Navy Opens Nurse Course At Newport

The Navy has established an eight-week indoctrination course for Nurse Corps officers at the Naval School, Officer, (Women), within the Naval Schools Command, Newport, R. I.

The indoctrination course will be conducted within existing facilities at the Naval Schools Command with classes of approximately 30 officers convening monthly, exclusive of December.

The course of instruction is planned to aid the newly-commissioned Nurse Corps officer in adjusting to military life and acquainting her with her responsibilities and privileges as an officer.

Capt. Stevens At Patuxent

Capt. William M. Stevens has relieved Capt. Carl W. Brown as Commanding Officer, VR-1, NAS, Patuxent River, Md., reporting from Washington, where he was on duty with the Office of the Chief of Naval Operations. Captain Brown has been assigned to command the Naval Air Reserve Training Unit at NAS, Norfolk.

Carrier Catapults For Atomic Carrier

The Carrier Corporation has received an \$8 million Bureau of Ships contract for compact air compression plants which will be used to power the four catapults aboard the first atomic carrier Enterprise under construction at Newport News, Va.

Each compression plant consists of three compressors, two turbine drivers, expansion, condensing and cooling tanks, plus connecting pipe.

The Enterprise is scheduled for launching next June, with completion slated for September, 1961.

The catapult compression system duplicates a prototype model installed at the Lakehurst, N. J., Naval Air Facility.

Goodyear Gets New BuAer Representative

Cdr. Louie W. Strum, Jr., a lighter-than-air craft officer since 1943, has relieved Cdr. E. W. Steffen, Jr., as Navy Bureau of Aeronautics Representative at Goodyear Aircraft Corporation, Akron.

Commander Strum had been CofS to the Commander, Fleet Airship Wing One, at the Lakehurst, N. J., Naval Air Station.

Commander Steffen, head of BAR-Akron operations since 1956, has been named commanding officer of the Naval Aviation Engineering Service Unit in Washington.

U. S. NAVY ORDERS

LOW COST PROTECTION. USS ESSEX. Originally fitted out in 1799 and built by public subscription the Essex afforded low cost protection for the people of the United States. Carrying 32 guns she gained fame on her famous raiding cruise in the South Pacific from 1812 to 1814.

Eighty years later, NAVY MUTUAL AID ASSOCIATION was founded. The purpose was to give low cost protection to members of the Navy, Marines, Coast Guard, and their families. For SEVENTY-NINE YEARS NMA has continued to provide this LOW COST PROTECTION.

Write us today for our free booklet that will explain the full services and benefits of NAVY MUTUAL AID to you.

ELIGIBILITY. All permanent and temporary officers and warrant officers of the Navy, Marine Corps, and Coast Guard, including reserve officers on extended active duty, and not over 62 years of age, are eligible.

BENEFITS IN FORCE.....\$190,000,000
ASSETS.....\$ 39,000,000

Col. Crowder Heads Group At Tyndall

Col. Murray W. Crowder, jr., has arrived at Tyndall AFB, Fla., from Johnson AFB, Japan, to assume command of the 3625th Technical Training Group (Weapons Controller).

He replaces Lt. Col. Frank Hay who commanded the Group since last year. He became commander when Col. George Brookings was transferred. Colonel Hay is scheduled to resume his former position as Deputy Commander.

Colonel Crowder has been serving as deputy commander of the 41st Air Division in Japan since 1958. Previously he served in the same capacity with the 39th Air Division.

Mrs. Crowder, the former Harriet Elizabeth McIlroy, was an Army nurse before her marriage. The Crowders have four children, Robert 18, Fred 16, Elizabeth 14, and Susan 12. The children are all active in the Boy and Girl Scout programs.

SAC Activates Four Divisions

The Strategic Air Command has activated four air divisions to supervise activities of bomber and aerial tanker units at four bases.

The new air divisions and their locations are:

- 813th, Mountain Home AFB, Idaho.
- 42d, McConnell AFB, Kan.
- 17th, Whiteman AFB, Mo.
- 22d, Clinton County AFB, Ohio.

McConnell and Whiteman are part of the Second Air Force, with headquarters at Barksdale AFB, La. Mountain Home is assigned to the Fifteenth Air Force, headquartered at March AFB, Calif. Clinton County AFB is a Continental Air Command base, but is slated for transfer to SAC and will be assigned to the Second Air Force.

The 813th will exercise control over the 9th Bomb Wing at Mountain Home, the 4061st Air Refueling Wing at Malmstrom AFB, Mont., and SAC units exercising on Canadian bases.

Supervision of aerial refueling training at Randolph AFB, Tex., and B-47 training at McConnell will be assumed by the 42d.

The 17th will control SAC units located at Whiteman AFB, Offutt AFB, Neb., Bunker Hill AFB, Ind., and Bong AFB, Wis., under construction.

The 22d at Clinton County AFB will be responsible for a refueling organization at that base, a refueling wing which will later be activated at Selfridge AFB, Mich., and SAC units exercising on other Canadian bases.

AF Baseball Tourney Will Begin 21 Sept.

The Air Force has selected Tyndall AFB, Fla., to host the USAF World Wide Baseball Tournament 21-26 September.

It is expected that at least 10 teams from various Commands will participate. Tyndall will represent the Air Defense Command.

Departing ISO Honored

Maj. Francis H. Dawson, departing Alaskan Air Command Chief of Information Services, has received the Air Force's Commendation Medal from Maj. Gen. C. F. Necrason, AAC Commander.

Major Dawson reports to the Air Force's Command and Staff School at Maxwell AFB, Ala.

AF War Games Computer

Technical Operations, Inc., her announce at Burlington, Mass., the award of Air Force contract for \$950,000 for continuation and enlargement of the Operations Model Evaluation Group they operate for the Air Battle Analysis Division, Deputy Chief of Staff, Plans and Programs.

The research program being conducted in Washington, D. C., involves the use of high-speed electronic computers for evaluation of future air wars.

ICELAND CHIEF

Brig. Gen. Gilbert L. Pritchard, USAF, is the new Island Commander, Iceland and Commander, Iceland Defense Force, Keflavik International Airport.

He relieved Brig Gen. Henry G. Thorne, jr., USAF, who had been ISCOMICE since August 1957. General Thorne goes to Wright Patterson AFB, Dayton, Ohio, to become Commander of the 3500th USAF Recruiting Wing.

Big Hiller VTOL Goes To Edwards

The Air Force X-18, described as the western world's largest vertical take-off aircraft, has completed 90% of its ground test program and has been transferred from Moffett Field, Calif., to Edwards AFB, Calif., where flight testing of the tilting aircraft will commence in late fall.

Moffett tests consisted primarily of prolonged engine runups at speeds from idling to the maximum available (11,000 horsepower), at all wing tilt angles from zero to 90 degrees.

Functional tests, conducted during these runs with a number of Hiller suppliers participating, included: Allison vibration surveys of the two T40 turbo-prop engines, studies of fuselage vibration characteristics and testing of the pitch control diverter and tail pipe installations, with power supplied by the Westinghouse J34-WE-36 jet located in the fuselage.

Tests were also made of system capabilities and temperature ranges. Near the conclusion of the program, the entire aircraft was subjected to a week of shake tests.

The X-18 was subsequently disassembled and moved in a caravan of trucks to the AF Flight Test Center at Edwards. Together with test pilots George L. Bright, jr. and Bruce F. Jones, 14 Hiller engineers and mechanics will initially take up residence at Edwards to form the basic X-18 technical staff.

AF Cancels Contract For Hi-Energy Engine

The Air Force notified Congress 10 August that it has cancelled a contract with General Electric Company for development of a J93-5 engine which would have used high energy fuels.

This will not affect development of the J93-3 engine by General Electric, programmed for use in the B-70 bomber and F-108 long range fighter.

Cancellation of the J93-5 means that the Air Force will not start up and operate a plant at Model City, N. Y., which was scheduled to produce the high energy fuel.

The company involved in this Air Force contract is the Olin Mathieson Chemical Corporation, Niagara Falls, New York.

Navy Announcement Follows

Termination of plans for production of high energy boron aircraft fuels has forced cancellation of a production contract at Callery Chemical Company, Muskogee, Okla., it was announced at the Pentagon on 11 August.

The plant, 99% complete, has employed approximately 460 persons, represents a \$35,355,000 investment.

The Pentagon said: "Navy requirements for the fuel ceased some time ago, but the Muskogee plant was kept in operation while the Department of Defense determined the respective merits of the Callery plant, and a plant operated by Olin-Mathieson Chemical Corporation in Niagara, N. Y., for satisfaction of possible Air Force requirements. The Air Force has decided that its requirement no longer exists and has cancelled its contract with Olin-Mathieson."

"Plans for the future of the Muskogee plant still must be worked out."

AF Schedules Reserve Forces Seminar

The Air Force will conduct its second annual Chief of Staff's Reserve Forces Seminar at the Pentagon 24 and 25 September.

More than 250 members of the Air National Guard and Air Force Reserve are expected to attend.

Purpose of the two-day conference is to acquaint key Reservists with the present position and objectives of the Air Force as a primary military instrument of national defense.

Secretary of the Air Force James H. Douglas, and Chief of Staff General Thomas D. White, head the list of top level military and civilian leaders conducting the series of discussions on topics of vital importance to the security of the United States.

The first day of the seminar will be devoted to describing the present status of the Air Force, and its role—now and in the future—as a deterrent to war and as an instrument of national policy. A representative of the Department of State will present an analysis of the current international situation and describe the position of the United States in comparison to the philosophy of Communism. Air Force representatives will follow up with briefings on the military posture of American airpower and on objectives and future responsibilities of the Air Force.

Other speakers from the Air Staff will report on Research and Development, Personnel, Logistics, Operations, and Fiscal Support of Air Force objectives.

On the second day of the conference, Maj. Gen. Robert E. L. Eaton, Assistant CofS for Reserve Forces, and General White will discuss the significance and the mission of Air Reserve Forces as a part of the nation's airpower capability. There will also be briefings on the par-

ticular functions and responsibilities of the Air National Guard and the Air Force Reserve.

Reservists will be transported to Washington by military aircraft provided by the Air Force's Continental Air Command.

Flight Safety Research Unit Is Redesignated

The Directorate of Flight Safety Research at Norton AFB, Calif., has been renamed the Directorate of Flight and Missile Safety Research.

Also established as of 1 August was a new Directorate of Nuclear Safety at Kirtland AFB, Albuquerque, N. M.

Both directorates are components of a newly organized 1003rd Inspector General Group which is a field extension of The Inspector General, USAF, Headquarters.

Operational control of the 1003rd is vested in Maj. Gen. Joseph D. Caldara, recently appointed Deputy Inspector General for Safety with offices in Washington, D. C.

The 1003rd's mission is to exercise responsibility for development and monitoring the implementation of ground, flight, missile, and nuclear safety policies, programs, standards, and procedures.

The announcement was in keeping with an earlier disclosure that the Air Force is placing increased emphasis on missile and nuclear safety as both types of weapons achieve operational status. It means that all safety functions of the Air Force, including ground safety, will receive direction and policy guidance from a central office.

Air War College Class Make-Up Told

With an enrollment of 166 students, the '60 Class at the Air University's War College at Maxwell AFB, Ala., has 11 colonels and 123 lieutenant colonels of the Air Force, 10 Army and five Marine Corps lieutenant colonels and seven Navy commanders.

From Britain's Royal Air Force are a group captain and two wing commanders. A wing commander represents the Royal Canadian Air Force.

Two students are civilians from the Department of State, Central Intelligence Agency, National Security Agency, Office of Civil and Defense Mobilization and the U. S. Information Agency each sent one civilian.

More than half of the students are graduates of other Air University schools. Thirty-six per cent of the new class have attended AU's Command and Staff College, a nine and one-half month course conducted at Maxwell AFB. Almost 80% of the class hold aeronautical ratings. Average length of active commissioned service of the students is 16 years.

AF Major Board Set For October

Regular Air Force captains will be selected for permanent major by a board meeting in Washington in mid-October.

The "best qualified" method of selection will be used.

Nominations for demotion of Regular Air Force permanent captains will be considered at the same time.

Eligibility requirements for promotion by this board are as follows:

Line of the Air Force—Permanent captains, including WAF and newly integrated officers, with dates of rank prior to 1 January 1954, not currently carried on Recommended Lists for permanent promotion to major; (through: Lehman, William P., 37134A, Number 4099, 1959 Air Force Register).

MEDICAL CORPS—Permanent grade captains, including newly integrated officers, with dates of rank prior to 1 January 1954, not currently carried on Rec-

ommended Lists for permanent promotion to major; (through: Peniston, William H., 25636A, Number 106).

DENTAL CORPS—Same as Medical Corps. (through: Metts, Dewey M., jr., 26695A, Number 40).

VETERINARY CORPS—Same as Medical Corps. (through: Grau, William H., jr., 23073A, Number 6).

NURSE CORPS—Newly augmented permanent captains not listed in 1959 Air Force Register with dates of rank prior to 1 January 1954.

CHAPLAINS—Same as Medical Corps. (through: Jellico, Thomas M., 24681A, Number 39).

What Is A Deterrent Posture?

Secretary of Defense McElroy, whose brilliant success in the business world was due in no small measure to his ability to obtain public impact and reception of varied products and projects, has said he would be eager to show Mr. Khrushchev defense installations in this country, if the Soviet Premier should so desire. President Eisenhower at his news conference this week said he, too, would be pleased to open military bases to Mr. Khrushchev's view. We hope the inquisitive visitor takes advantage of the unsolicited invitations. Frankly, we doubt that he will. To do so might suggest reciprocity during President Eisenhower's visit to the Soviet Union.

The reason we think Premier Khrushchev's visits to key defense facilities would be desirable is our conviction that the Soviets must understand fully the strength of our deterrent force. We agree completely with Secretary McElroy's expression at his news conference last week that what must be feared most is a war that would start by a Soviet miscalculation of our strength.

In that connection, as work begins on the fiscal '61 budget, there must be a fervent hope that Secretary McElroy will fight as hard as he knows how against any economy-inspired cuts in our defense program. Premier Khrushchev and his strategists, whether or not they visit our bases, carefully scrutinize the U. S. defense budget to learn the degree of our determination to resist Communist expansion plans.

During the JOURNAL's recent tour of NATO activities, a top officer of the Royal Air Force made the observation in a briefing session that "real deterrent power is when the enemy loses his annual war game."

We think that tells the story. Premier Khrushchev's forthcoming visit will be successful, if on his return, he is more convinced than ever before that the people of the United States are united in their determination to maintain a deterrent posture that will deny the Soviets any chance of victory on the war gaming boards or on the battlefield.

A Big Cavity In Pentagon Leadership

If the retreat in the fight to obtain adequate dental care for Service families is any indicator of what is going on these days, then the concept of Pentagon leadership is in urgent need of critical examination. We suggest immediately that if the Defense Department lacks the courage to make these assessments it's up to Congress to advise Secretary of Defense McElroy that he, and not the American Dental Association—or any other group—should decide Armed Forces policy.

There was a time when Defense Department leaders were not pushed around quite so easily as is the case today. Take the shocking situation, revealed on Page 1 of this issue, in which a stopgap Air Force dental program for families has been ground to a halt because of opposition from American Dental Association headquarters.

The Air Force, concerned because of the reduction in family dental care that resulted from implementation of MediCare, decided to use non-appropriated funds to establish clinics for family dental care. The thought was to use civilian dentists, including many retired military dentists, to ease the problem until a DentiCare program could be put into effect.

Dr. Frank B. Berry, who is Assistant Secretary of Defense, (Health and Medical), endorsed the Air Force plan. He has been doing everything he can, against tremendous obstacles, to assure military families the best possible medical care program. Repeatedly, he has made the point that medical and dental care are inseparable in a total health program.

On the DentiCare front, Dr. Berry has run into heavy fire from the American Dental Association. But in this situation, it can be said at least that the ADA is not the sole arbiter. The Budget Bureau has voiced objections to the estimated \$35 million cost of DentiCare. Right or wrong—and we believe the decision is short-sighted—it can be said that the decision to delay DentiCare is in part an Administration determination.

That can't be said, however, for the order that has gone out to the

Air Force to halt any expansion of its family clinic program. The order stems solely from ADA objections. There is hope that the dynamic efforts being made by Dr. Berry will result in a decision by the ADA at its September meeting in New York City to support the approval that has been given the family clinic plan by a number of its local chapters, including those adjacent to the four Air Force bases where the plan is in operation.

Certainly, we hope the ADA leaders will (1) endorse DentiCare and (2) give a green light to the family clinic program.

But the inescapable fact of the case is that the Pentagon has bowed to expediency. It has permitted an outside group to decide what the Services can and cannot do in such a vital area as the health of thousands of Service families.

We repeat: If Secretary McElroy doesn't back Dr. Berry's ceaseless efforts to eliminate inadequacies on the health front, then it's time for Congress to intervene.

Equalization: First Order Of Business In January

Secretary of Defense McElroy has made it known, in answer to a question from a JOURNAL reporter (see Page 13), that the Services have advised him they do not think it will be possible to shift funds in the fiscal '60 budget to defray the cost of retired pay equalization without serious ramifications in other programs. In view of the fact that President Eisenhower has said he was not yet persuaded such a reallocation could not be made, there is no question that the Secretary is satisfied that a full inquiry of the fiscal situation has been made.

We are in no position to dispute the conclusion that was reached by the Services and submitted to Secretary McElroy. If that is, indeed, the final evaluation of the problem, then the Pentagon should make known immediately—before adjournment of the present session of Congress—that a first order of business next January will be a request for supplemental funds to make possible equalization of retired pay effective 1 January 1960. If the Pentagon fails to do this, there is the danger of a delayed effective date.

The President has spoken of the desire for pay equalization from January onward. The Pentagon must make certain that it does not imperil this objective. The day that the new session convenes in January, or certainly within that week, appropriate legislation should reach Capitol Hill.

READERS' VIEWS

Hails Influential Role

Your headline of 25 July 1959 concerning the decision of the President to support retirement-pay equalization is good news indeed. Of course, as has been pointed out, the battle is not yet won, but the chances appear to be exceedingly good for a rectification of the grievous mistake which was made in 1958.

Thousands of us who were adversely affected by the 1958 legislation owe a great deal to you and to THE JOURNAL for the support you have given to our efforts to secure fair and equal treatment. You have consistently presented the matter in a rational, realistic and sensible manner which I am sure must have had considerable influence on the members of Congress who receive your publication.

Thank you for your great interest and your unflagging support.

Tombstone Retirements

Keep up your fine work in behalf of the Services and Defense generally. The letter from RAdm. (Ret.) re Logic and Justice in 8 August issue is basically sound and well stated. Senators and Representatives would do well to study it carefully.

From where I sit, some of the greatest conniving appears to be that engaged in by the Members of the House. How they use their pay and allowances and whether ethical or extra-legal does not seem to concern some of them. If current reports are even in part true. Further, it appears that they are quick to raise their own pay and allowances with little or no concern, and to improve their retirement privileges too.

The rider tacked on to the Hump Bill is but another in the long series of instances in which Congress has broken faith. The breach of contractual or quasi-contractual obligations and agreements is apparently of little or no concern.

In my opinion, while uniform procedures are per se desirable in the Services, tombstone promotions for Navy, Marine Corps, and Coast Guard officers is an implied, if not expressed, moral obligation until those eligible therefore have all in fact retired.

I am in that category but desire to stay for maximum active duty as I happen to want to serve my country from patriotic motives.

CAPT., USN

IN THE JOURNAL

10 Years Ago—Under the Unification Act which President Truman signed on 10 August, the President has announced the appointment of General Omar N. Bradley as Chairman of the Joint Chiefs of Staff to serve for two years.

50 Years Ago—Who is responsible for the stories appearing in print to the effect that Marines are anxious to join the Army because they do not think that they are treated fairly on board ship in the matter of guard duty?

95 Years Ago—It is now settled that our loss in the raid upon the Macon Railroad, referred to last week, is hardly more than 1,000 men; and General McCook is a prisoner. The railroad was successfully destroyed, and communication temporarily, at least, suspended, between Macon and Atlanta.

Hébert Comment

THE JOURNAL is to be congratulated on its comprehensive coverage of the Hébert hearings and related matters.

The editorial in your 1 August issue re employment of retired officers was a brilliant précis, I thought, of this controversial problem.

R. N. MCFARLANE,
EXECUTIVE DIRECTOR,
NATIONAL SECURITY INDUSTRIAL ASSN.

House Vote Kills Construction Projects; AF Loses Sentry, Midas Funds

Criticizing the Armed Services for "piecemeal and short range planning," the House Appropriations Committee has lopped \$278,197,300 from the fiscal '60 military construction program.

The reductions, approved by the House and sent to the Senate on 10 Aug., include more than \$28 million for family housing, enlisted barracks and bachelor officers quarters (see page 1).

The re-written House bill also:

- Placed new restrictions on the Bomarc program (see Memo).

- Eliminated more than \$2 million for air defense aircraft facilities at Webb AFB, Tex., and Davis-Monthan AFB, Ariz., and called for a detailed study "of the need for the deployment of manned interceptors in this area."

- Urged consolidation of all military research in the field of aviation and space medicine.

- Eliminated funds for 10 of 12 hospital facilities.

- Stripped the Air Force of \$23.5 million for facilities in support of the Sentry and Midas satellite programs and turned the funds over to ARPA.

- Approved \$4 million for a new academic building for the Armed Forces Staff College, Norfolk, Va.

- Approved \$10 million for a North American Air Defense Command combat operation center, with the stipulation that the final cost of the facility shall not exceed \$29 million.

- Directed a study as to feasibility of combining the various cryptographic training schools of the several Services at a single location.

- Cut SAC maintenance facility funds and asked for a detailed review of earlier plans to complete SAC aircraft maintenance at "home bases" servicing several units.

- Eliminated funds for operational facilities for the Mace missile on Okinawa and in Europe.

The Air Force was the biggest overall loser in the cut-back. The President had requested \$915 million in construction funds for the Air Force. The House approved \$777 million, a reduction of \$137.9 million.

The Army lost \$99.4 million. The President had requested \$372 million, and the House granted \$272.5 million.

The Navy was cut \$64.3 million from the President's requested \$253 million. The House approved \$188.6 million.

The entire \$23.2 million requested for the Defense Department (including \$20 million for Iroan stations), was approved, and the House added \$23,545,000 for ARPA for the Sentry and Midas programs.

The Committee said "much remains to be done to assure the proper planning

and programming of the construction of military facilities." In its report, the Appropriations group said it appears that each Service currently "receives a slice of the melon without a realistic comparison being made between the specific construction requirements of the individual Services."

The Committee told the Secretary of Defense he must "weigh the specific requirements within and between the several services to assure that the program is limited to those projects for which a military need not only exists at the present time but will continue to exist, at least, for the foreseeable future."

The Secretary was directed to "take immediate and positive steps to see that a more effective review process is developed and that future military construction estimates are based on adequate and realistic programming of essential military facilities."

Reader Answers Letter, Wants Better Break For Combat Disabled

In the 8 August edition THE JOURNAL features a letter under the title: "RETIRED ADMIRAL ASKS LOGIC AND JUSTICE FOR CAREER OFFICERS: OUTLINES REMEDIES."

Why is it that in the many editorials and articles debating the pay and employment of retired military personnel one sees little on behalf of the men retired for combat physical disability? What of the regular service man who is wounded taking or holding some unnamed Pork Chop Hill? If he is lucky enough to live, later a medical disability board may tell him that he must be separated from his chosen and preferred profession, given some monetary percentage of disability, generally less than full retirement and told to get out and make a new career for himself if he is able to do so.

Is any thought being given to equalization of retired pay privileges for disability cases incurred by an instrumentality of war who do not have sufficient longevity combined with percentage of disability to receive any benefit under the Pay Act of 1 June 1958?

The premium is still on length of service. What about performance?

Is it "logic or justice" that under the new pay scale a Major or Lt. Colonel with 18 years' service might retire with a higher income than a combat disabled Colonel—depending on the latter's percentages of disability and longevity? This is typical. The same condition exists at other ranks. Is combat still the pay-off when what Hanson W. Baldwin's hard-hitting article "Our Fighting Men Have Gone Soft" calls "unwilling time servers" can attain greater economic rewards than their contemporaries or even seniors in rank who took (or will have to take) the risks leading to their being shot out of their careers. If, as Baldwin says, the "primary job—of the Armed Forces is—to win battles," shouldn't this be the man to think about now?

Haven't we put the cart before the horse with a pay system that reduced

the comparative economic status within the Officer Corps of our present and future company and field grade combat disability cases? From the viewpoint of national security, can any nation afford to reward the fellow who keeps his head down, surrenders, gets time for fogies as a P.W., (even closing its eyes to mild collaboration with the enemy), the man who avoids combat but serves for twenty years whole and hearty, ahead of those who take the risks that win battles and have the misfortune to get hit?

Much of the justification of the new pay scale was inflation. The minimum retirement expectancy of the average competent regular officer is the grade of Colonel or Navy Captain.

Compare what happens if he sits the war out Stateside or gets wounded in combat any time before 26 years of service. The maximum physical disability he can receive for pay purposes is 75%. Even, if and when they are brought under the new pay scale, the WWII or Korean conflict combat disability retirements at this grade with under 16 years of service will receive at least two hundred and twenty-one dollars less per month than a (possibly non-combatant) contemporary time server with 26 years' service. This amounts to no more than the effect of inflation on the dollar during that same ten years or more. Here is and will be your real "second-class citizen—economically" to again use a Baldwin phrase. The majority of your field grade casualties of WWII and the Korean conflict have less than 16 years' service. Remember combat is a young man's game.

In his appeal to logic and justice for retired personnel, the Admiral recommends separating retired pay into two parts—pay for past service and retainer pay. The latter would presumably enable the non-physical disability retired officer to increase his longevity and thereby his pay through continuing in a ready reserve status.

If the Admiral's logic has merit, shouldn't time on the retired list be counted for pay purposes in the case of a man stripped of his chosen profession by virtue of being wounded by enemy fire?

Our mission is to win battles. To accomplish this let's give the combat leader that little peace of mind leading to the moral fortitude that comes of knowing he and his family will not suffer economically if he is man enough to accept the exacting personal standards of combat leadership laid down by General George S. Patton—"Any commander who fails to obtain his objective and is not dead or severely wounded has not done his full duty." In this sense full duty can be done in a day or an hour on the battlefield and merits the full retirement of the rank in which such service is performed.

The only unique advantage now left to the combat disabled veteran is his dual compensation and other exceptions involving Civil Service employment. Aren't we parlaying what were traditionally exclusive combat disability privileges into rights of the whole military society without doing anything for the casualties who pioneered the way for the rest of us?

The long-term careerist needs and deserves the rewards of the new pay scale and improved civilian job opportunities but so do our career officer combat disability retirees—particularly equalization of retired pay privileges. What is being done to protect combat disability cases against creeping inflation?

COLONEL, USA-RET.
WITH OVER 28 YEARS'
SERVICE

A Salute From Texas

It was indeed a pleasure to receive the 25 July issue and read the "Good Word From The White House," regarding the President's support of equalization of pay legislation.

I would like to express my congratulations and appreciation to you all for your effective and persistent efforts in

the campaign to date, through the medium of fine editorials and news coverage. I know we can count on your continued support.

As usual, THE JOURNAL can add another feather in its cap of outstanding service to Armed Forces personnel and our National Defense.

ROBERT E. JOSEPH
COLONEL, USA-RET.
COUNSEL
UNITED SERVICE AUTOMOBILE
ASSOCIATION
SAN ANTONIO 9, TEX.

RESCUE SERVICE FACES SPACE ROLE

Brig. Gen. Joseph A. Cunningham is the new Commander of the Air Rescue Service having succeeded Brig. Gen. Thomas J. Du Bose, USAF-Ret., who commanded Air Rescue for seven years in its world-wide mercy mission.

General Cunningham will direct the ARS from Orlando AFB, Fla., headquarters of this organization since 1951.

It was recently announced that the Rescue Service is slated to play an important part in the new space program.

"Every effort is being made to insure that the Air Rescue Service will provide the same factors of safety and protection to our astronauts as it has to others in the past," General Cunningham said.

"The Recovery program for returning space capsules is an important part of the new space efforts and the Air Rescue Service will play a vital role in making certain that the space traveler will have a safe round trip," he related.

General Electric Executive Explains Why His Company Employs Retired Officers

THE General Electric Company, in a presentation to the Hébert Subcommittee, reported that it employs 25 retired military personnel and 32 former Federal civilian employees.

Vice President and Group Executive C. W. La Pierre, who is responsible for electronic, atomic and defense systems activities, told why his company uses retired members of the Armed Forces.

Mr. La Pierre said:

"We don't hire military people because they are military people. We hire them for positions with specific qualifications, and it sometimes happens that the only men who can meet these qualifications are men with military backgrounds. This contribution is primarily technical, usually in the area of long-range planning in providing the guidance which can be supplied only by practical knowledge of military requirements.

"We do not need or use retired military men to sell or negotiate. We have experienced sales people for that.

"These retired military personnel are continuing to make an important contribution to the defense effort. Years of effort and scientific talent and taxpayers' money are saved by closely relating a new weapon or system to actual and specific defense needs, plans, and programs."

HIS COMMENTS ON PREMIER KHRUSHCHEV'S VISIT to the United States and the readiness of the Services to show the Soviet boss key military activities commanded top national press attention, but military people also will be much interested in Secretary of Defense McElroy's skilled responses at his last news conference to questions concerning retired pay equalization and "tombstone" promotions (see Pages 1 and 13). The Secretary obviously had obtained detailed briefings on these problems.

PRESIDENT EISENHOWER'S REMARKS this week on the "tombstone" problem (see Page 3) largely paraphrase the observations that were made previously by Secretary McElroy. There have been times in the past when Defense civilian chiefs were not fully aware of military personnel problems. But when it comes to pay equalization and "tombstone" promotions, it's a different story. One important happy omen for future Service morale is the service of former Secretary of the Navy Gates as Deputy Defense Secretary. Mr. Gates' experience in handling Navy-Marine Corps manpower matters assures Secretary McElroy invaluable counsel in formulating personnel policies for all the Services.

THE ARMY IS SCORING GAINS in retention of young officers beyond completion of obligated tours, but there are still some critical shortcomings. Only 1 out of 10 Engineer lieutenants chooses to remain in uniform. Ordnance has only a 15% retention rate. The Army's overall 35% officer retention goal is being met only in the Infantry (36.3%). Army officials are pleased, however, that the 18.7% rate in fiscal '57, rose to 21.2% in fiscal '58, and 25.4% in fiscal '59.

WAC ENLISTMENTS are on the rise. Newly released statistics show that during June, the Army enlisted 437 women. This was 124.9% of the objective. During the same month, 10,098 men with no prior service enlisted for three years or more. This was 101% of the objective.

ALTHOUGH THERE IS DISCRIMINATION against male nurses in the Army and Air Force (see Page 21) in the matter of Regular commissions, the law authorizes appointment as Regular officers of female physicians and dentists. The Army has five female physicians, and the Navy has eight. The Air Force has the lone woman dentist on active duty, according to Pentagon officials.

IF BUDGET PROBLEMS created by Congressional committees weren't so grave, Pentagon leaders could be amused at confusing recommendations made by House and Senate groups. Capitol committees consistently and loudly criticize the Defense Department for its inability to bring Army, Navy, Air Force and Marine Corps objectives into complete alignment, but the Representatives and Senators repeatedly but quietly fall down in the same endeavor.

A CASE IN POINT: The House Armed Services Committee approved and the Senate Armed Services Committee killed almost the entire Defense Department hospital construction program for the current fiscal year. The program was later restored in conference. Now, the House Appropriations Committee, in agreement with the Senate Armed Services group, has again knocked the hospital program askew by withdrawing needed funds. It will surprise no one, however, if the Senate Appropriations group sides with the House Armed Services Committee and restores the program.

THIS IS ONLY ONE OF NUMEROUS SUCH INSTANCES in which the two Houses of Congress find it difficult to agree on Defense programs. Earlier in the year, the Senate killed Nike-Hercules construction authority and patted Bomarc on the back. The House killed Bomarc appropriations funds and gave Hercules the go-ahead. A compromise was agreed to only after a re-study of the air-defense program by the Defense Department. Both Houses similarly agreed to kill the Mace program, but eventually told the Secretary he could go ahead with production of the missile provided it is possible to transfer funds from some other source.

FOLLOWING THE FINAL BOMARC-HERCULES DECISION, the Senate Armed Services Committee still insisted that Bomarc should be accelerated, if possible. Then, the House Appropriations Committee followed up by telling the Defense Department that it cannot obligate any funds for Bomarc sites in the northwestern portion of the United States between the Great Lakes region and the Pacific Coast until a detailed study has been made and consideration given to advancing these locations farther north.

THE TIGHT BUDGET SITUATION, pointed up by the inability of the Services to find enough money to cover the retired pay equalization cost of \$25 million per year, makes it dubious that the Pentagon will be able to do anything next year about adjusting quarters allowances to compensate for increases in the cost of living index. Such action was proposed by the Cordiner Committee. Prospects are that the problem will be held in the "under study" no-man's land.

THE AIR FORCE SURGEON GENERAL, Maj. Gen. Oliver K. Niess, considers that his Service's family dental clinic plan (see page 1) is no real substitute for DentiCare. "What is needed is a full-scale DentiCare program for all Service families," he told The Journal. Like Dr. Frank B. Berry, Assistant Secretary of Defense for Health and Medical, General Niess stresses that dental care is part of medical care and both should be provided to military families, without distinction.

RETIRED DENTAL OFFICERS COULD BENEFIT from the Air Force clinic arrangement, Dr. Berry noted. In discussing operation of the clinic system, Dr. Berry said that "we thought first particularly of employing retired personnel." He said retired personnel and their families might also be allowed to use the clinics as patients. But all these are only hopes; American Dental Association opposition has nipped the dental clinic plan in the bud.

PRESIDENT EISENHOWER JUMPED OVER NINE Marine Corps general officers to choose Maj. Gen. David M. Shoup, a one-month Army officer, (see Page 1) to be the next Commandant of the Marine Corps. The group includes all five Leatherneck lieutenant generals. There are four major generals senior to General Shoup. The appointment means a double promotion for General Shoup, who will have four-star rank. General Shoup, as Commandant, at 55 years of age, will be younger than all of the three-star Marine generals. His birthday is 30 December. It may be that the swearing in will be held on that date.

GENERAL SHOUP'S APPOINTMENT recalls that President Eisenhower went far down the Navy's flag list in 1955 to designate then RADM. Arleigh Burke to succeed Admiral Robert B. Carney as Chief of Naval Operations. Admiral Burke next week begins a third two-year tour as CNO.

THERE HAVE BEEN SEVERAL TIMES in Marine Corps history when the senior officers have been bypassed for the Commandant's post. In 1864, the Journal reported that Secretary of the Navy Gideon Welles retired all of the Corps' senior officers and appointed Maj. Jacob Zeilin as Commandant. In 1936, President Roosevelt went down to the brigadier general ranks to appoint T. (for Thomas) Holcomb. He was the first Commandant to hold three-star rank.

NAVY, MARINE CORPS, AND COAST GUARD OFFICERS, who had good reason to anticipate that there would be an extension of the "tombstone" promotion authority beyond 1 November in the wake of the President's statement on the subject, will be disappointed—to say the least—in the unyielding position (see Page 1) taken by Senator Cannon (D-Nev.). Aboard naval ships and at Sea Service officer clubs, there will be comments regarding the fact that the Senator happens to be an Air Force Reserve colonel.

SENATOR CANNON'S COMBAT RECORD certainly will not be criticized. He holds the DFC among numerous other decorations, was shot down over Holland and evaded capture for 42 days. There is no question that many Naval people feel that the Army and Air Force, behind the scenes, are pleased that the Sea Services will lose a privilege which they alone have had since 1925.

WHATEVER THE INTER-SERVICE ASPECT of the situation, Navy and Marine Corps personnel officials late this week were getting set for a sharp rise in retirement applications to beat the 1 November deadline. Many officers had been delaying application action in the hopes that the 1 November deadline would be extended. Just as soon as Navy and Marine Corps continuation boards adjourn, and individual officers know whether or not they are to be retained on active duty, there will be an immediate increase in retirement applications, unless there is a sudden change in the picture and hopes brighten for an extension of the "tombstone" authority.

WHY HAS CHAIRMAN VINSON of the House Armed Services Committee remained aloof from the struggle to ease the impact of the 1 November repeal date? Obviously, the Chairman is taking the position that the repeal results from Senate action, and it is up to the Senate to initiate any legislative amendments. There's not much question that if the Senate did this, Chairman Vinson's Committee would concur in quick order and gain House approval.

THE HOUSE COMMITTEE COULD EXPLAIN with solid justification that another reason it prefers to wait for the Senate to move first is the heavy backlog of House-passed military legislation on which the Senate Armed Services Committee has yet to take action. Among the measures on which the Senate group has failed to hold hearings as adjournment approaches is the Reserve Officer Term Retention Contract bill.

THE SERVICES ALREADY are at work preparing "budget positions" for fiscal '61 action. Secretary McElroy has made it known that there is going to be a rugged appraisal of major programs, and the Services all are taking action to make certain they put their best foot forward in the crucial briefings that lie immediately ahead.

Secretary McElroy's Comments On Pay Equalization And "Tombstone" Promotions

WELL-BRIEFED in both instances, Secretary of Defense McElroy at his last news conference gave forthright answers to questions concerning equalization of retired pay and "tombstone" promotions.

A JOURNAL reporter noted, in posing a question on the retired pay issue, that

President Eisenhower has said he is not yet persuaded that the Pentagon could not find funds to defray the cost of equalization legislation.

The Secretary was asked: "Do you think you will be able to find this money?"

Mr. McElroy replied:

"I don't believe that we will. On the

other hand, I think an explanation of why that would be difficult is in order, because of course, our budget is a very large budget over all.

"The fact is that the particular element of the budget to which this would have to be charged is a very tight budget, because it's much more accurately predict-

able than the costs of aircrafts or missiles, for example, or shipping, and the question has been raised with each of the Services about their being able to fund these additional costs."

Mr. McElroy continued: "The question has been raised not once, but two or three times—and the answers of the Services have been reviewed by Mr. McNeil (Assistant Secretary of Defense W. J. McNeil, Comptroller) and in at least two out of the three Services it looks as if this could not be done—well, let's say, without affecting force levels, and things of that sort, which is not at all flexible, and I think would not be a price which the country would want to pay in order to do this.

"In other words," the Secretary said, "I think it would be regarded as more sound to ask for a supplemental appropriation than to take any such drastic action as that in order to meet the change in retired pay if that's to be authorized. Now, whether it's to be authorized is something that is really up to the Congress."

ON "TOMBSTONE" PROMOTIONS, he remarked that the repeal of this authority "was enacted without our having taken any initiative about it.

"My feeling about it," Secretary McElroy said, "is that on the assumption that the bill is signed and I rather assume it will be, that there's one factor that needs some particular consideration and that is the relatively short time that is available for a Naval officer to make his decision as to how he might want now to orient his future career.

"There are, as we know, many officers who are on board ship or who are otherwise not very accessible to the United States where they might get specific information on which they could reach a decision or where they might consult with their wives and families and these decisions when they are made are pretty important decisions in a man's life.

"So that I would be favorable to the allowance of a greater amount of time within which each of the people who might be affected here could make a deliberative decision based on information, based on consultation with his family, perhaps based on discussions with the prospective employer outside, but the same kind of thing should be available, it seems to me, to those men who are at sea or who may be in Antarctica or some place outside of easy discussion distance of the sources of information before the deadline is reached."

Col. Surratt G-3

Col. Joe F. Surratt has assumed the duties as Fifth Army G-3. He formerly was Deputy Commander and CofS, Northern Area Command, U. S. Army Europe in Frankfurt, Germany.

Colonel and Mrs. Surratt are residing at Ft. Sheridan, near Chicago.

the STOL Caribou

The sand strip at Fort Benning, Georgia (left) is 1,100 feet long. The photo was taken from the cockpit of the Caribou as the aircraft was about to touch down.

With a gentle 5-knot headwind, the Caribou came to rest 150 feet short of the dark spot in the middle foreground. By actual measurement—in less than 300 feet!

RAPID MOBILITY is synonymous with quick turn-around time . . . short take-off and landing . . . relatively high cruise speed. These qualities are inherent in the design of the DHC-4 Caribou.

Now any beachhead or combat area dirt strip long enough to accommodate a light airplane becomes an army air field for the 13-ton, 32-troop, STOL Caribou.

Construction Budget Cuts Hit Morale Projects In All The Services

From first page—

and climatic differences make it impossible to standardize housing in the Services. The Committee said "no one expects the Services to construct the same type of house in southern Texas as they would in northern Maine, but there seems to be no reason why the same house cannot be constructed at Ft. Dix, N. J., and at the adjoining McGuire AFB."

By standardizing family housing wherever possible, the Committee said the Services will save "costly architect-engineer fees currently being spent almost indiscriminately in many areas."

The House group also attacked the overseas family housing program, charging that some housing constructed only a few years ago now "stands unused."

Like the Senate Armed Services Committee, in a report issued last year (THE JOURNAL, 2 August 1958), the House Committee lashed out at the practice of allowing dependents to reside "in highly critical overseas areas." Hitting the policy as "extremely questionable," the Committee eliminated an unspecified

number of overseas family housing requests.

The Committee said, however, that there is no reason to deprive Servicemen of the presence of their dependents in some overseas areas, and cautioned the Defense Department to handle each project on an individual basis.

Although the Committee did not furnish a break-down of the eliminated family housing overseas, it did provide details of the \$28 million cut-back in Stateside housing and in a number of other morale-service areas. Here are some of the items eliminated:

Army

Aberdeen Proving Ground, Md.—\$576,000 for BOQ facilities.

White Sand Missile Range, N. M.—\$254,000 for commissary.

Ft. Lee, Va.—\$233,000, enlisted women's barracks; \$311,000 for BOQ.

Ft. Huachuca, Ariz.—\$2,541,000, enlisted barracks and supporting facilities.

Fitzsimons Army Hospital, Colo.—\$810,

000, enlisted barracks and supporting facilities.

Carlisle Barracks, Pa.—\$1,104,000, family quarters.

Ft. Benjamin Harrison, Ind.—\$787,000 for barracks and enlisted mess.

West Point, N. Y.—\$4,954,000, cadet barracks.

Air Defense Command Installations—\$1,646,000, for 80 family quarters.

Hanau, Germany—\$1,080,000, for a high school.

Army Security Agency, overseas—\$2,563,000 for family quarters and community support facilities; \$306,000 for theater and service club.

Ft. Benning, Ga.—\$1,324,000 for barracks and BOQ.

Navy

Submarine Base, New London, Conn.—\$2,269,000 for barracks and facilities.

Pacific Missile Range, Point Mugu, Calif.—\$980,000 for barracks.

Naval Training Center, Great Lakes, Ill.—\$4,442,000 for recruit barracks.

Air Force

Duluth AFB, Minn.—\$555,400 for barracks and supporting utilities.

Clinton County AFB, Ohio—\$1,230,000 for barracks.

Glasgow AFB, Mont.—\$220,000 for cafeteria and snack bar.

The Committee made the cuts on the recommendation of a subcommittee headed by Rep. Harry R. Sheppard (D-Calif.). If approved by the House, the reductions must still be considered by the Senate Appropriations Committee.

Army Men Join NORAD

Brig. Gen. Ethan A. Chapman, who had been Assistant CofS for the Army Air Defense Command at Colorado Springs, Colo., was assigned 3 August to North American Air Defense Command Headquarters there.

Col. Franklin G. Smith, who has been named for one-star rank, moved that date from command of the 2d Army Missile Command at Ft. Carson, Colo., to NORAD.

Col. Shettle Brigade Deputy

Col. Charles G. Shettle, former Commander of the 2d Battle Group, 1st Infantry, has assumed duties as Deputy Brigade Commander of the Second Infantry Division at Ft. Benning, Ga.

Col. Boyle Presides Over Armor Board

Col. Andrew J. Boyle has been named President of the Army Armor Board at Ft. Knox, Ky.

He replaces Col. John C. Welborn, USA-Ret.

Colonel Welborn, USMA '32, had been Secretary of the General Staff at Headquarters, Continental Army Command, Ft. Monroe, Va.

OSS-OSD Veteran Gets AMF Assignment

Robert D. Francis has been named Management Communications Manager of American Machine & Foundry Company, according to President Carter L. Burgess, a former Assistant Secretary of Defense.

Mr. Francis, who came with AMF in June 1958 as Special Assistant to the Director of Planning, was formerly Director of Presentation of Trans World Airlines.

As Director of the Presentation Division for the Office of the Secretary of Defense in Washington from 1954 to 1957, he supervised the preparation of charts and related visual aids used in hearings at the Defense Department, the White House, and before Congressional Committees.

During WWII he served with the OSS in the European and Mediterranean theaters.

Mr. and Mrs. Francis and their children David 16, and Alan 12, live at 16 Parkside Road, Silver Spring, Md.

Capt. Schneider Relieves Capt. Murray Aboard AKA

Capt. Frederick H. Schneider has relieved Capt. H. Q. Murray, as Commanding Officer of the amphibious attack cargo ship Vermillion (AKA 107) at Norfolk, Va.

Capt. Murray takes command of the Norfolk (DL-1) 28 August.

Captain Schneider, USNA '37, comes to the Amphibious Force from Strategic Plans Division, Chief of Naval Operations.

Col. Stacy Clapp Gets Top Dix Dental Post

Col. Stacy W. Clapp, jr., former Dental Surgeon of the Frankfurt-Giessen Medical Service area and Commanding Officer of the 122 Dental Service Detachment in Frankfurt, Germany, has assumed duties as Post Dental Surgeon, Ft. Dix, N. J.

Colonel Clapp replaced Col. Edmund H. Van Dervort, named Sixth Army Dental Surgeon at the Presidio of San Francisco.

Col. Van Dervort will replace Col. Roger G. Miller, who retires 31 August.

M/G Hennig Reports 2d Region Changes

Maj. Gen. W. H. Hennig, who commands the Army Air Defense Command's 2d Region at Ft. Meade, Md., has announced changes in the two top staff positions.

Col. Milan G. Weber is the new Deputy Commander, and Col. Theodore G. Bilbo, jr., is the new CofS.

Colonel Weber, formerly CofS moved into the Deputy Commander post upon the retirement of Col. Andrew Samuels, jr.

Colonel Weber has been on the 2d Region staff since August 1958, after returning from a tour of duty in the Far East, where he was CofS, MAAG, Japan.

Colonel Bilbo returned in June this year from Korea where he was Comptroller, Eighth U. S. Army, and U. S. Forces, Korea.

Capt. Collett Gets Amphib Sqdn. After Madrid Duty

Capt. James D. Collett has relieved Capt. Dale Mayberry, as Commanding Officer Amphibious Squadron TWO aboard the Chilton (APA 38) at Norfolk, Va.

Captain Mayberry, USNA '33, reports to the Bureau of Personnel.

Capt. Collett, USNA '32, had been U. S. Naval Attache and U. S. Naval Attache for Air, at Madrid.

During the latter part of WWII, he commanded the Collett, a destroyer named after his brother, a naval aviator who lost his life in the battle of Stewart Islands.

Captain Collett's current residence is 4008 Pemberton, Bayside Norfolk.

Col. Schlanser Commands Iron Curtain Regiment

Col. Lawrence E. Schlanser has become the 48th Commander of the 2d Armored Cavalry Regiment at Nuerenberg, Germany.

He replaced Col. Richard G. Ciccolella. Colonel Schlanser, USMA '35, recently graduated from the Army War College, Carlisle Barracks, Pa.

Colonel Ciccolella departs for assignment as V Corps G-3 after commanding one of the three armored cavalry regiments which patrol the Iron Curtain border in Germany.

Fourth Army Info Deputy Gets Post At Hood

Lt. Col. Edward H. Kyle, Fourth Army Deputy Information Officer has left Ft. Sam Houston, Tex., for Ft. Hood, Tex.

A USMA '40 graduate, he will command an artillery battalion in the 2d Armored Division.

Colonel Kyle's wife, Mary, and their five children will accompany him to his new assignment.

VOUGHT TAKES AIM AT THE SUBMARINE

Submariners, submarines and sub-launched missiles are intimate friends of a special engineer/scientist task force at Chance Vought.

Vought's ASW team, drawing on a ten-year backlog of comprehensive submarine experience, is working with the Navy and its Fleet units to develop advanced means of protection against attack from under the seas.

Vought engineers have assisted in the design of the missile installation in some of the Navy's newest subs. They have cruised aboard missile subs in pioneering voyages. They have learned the ways and habits of submarines. The company now is applying this valuable insight into virtually every phase of antisubmarine warfare.

Vought's oceanographic studies are designed to discover new, usable information about the submarine's environment. The lay of the land thousands of fathoms down is important in finding and fighting subs.

Fleet subs and aircraft are being operated for Vought in other tests. Under contract with the Office of Naval Research, company scientists and engineers are investigating sub detection techniques which employ new phenomena.

Vought's weapons-wise design and manufacturing teams can be counted on to transform the newest findings into complete and effective defensive systems, in whatever direction ASW studies lead.

Antisubmarine warfare, along with atmospheric missile and piloted aircraft development, are specialties in Vought's Aeronautics Division. Other major interests are being aggressively advanced in the company's Astronautics, Electronics, Research, and Range Systems Divisions.

Adequate Dental Care For Service Families Faces Formidable Obstacles

From first page—
the plan at its annual meeting in Dallas last November.

In another move restricting dental care for military families, the ADA forced a halt to the establishment of family dental clinics at Stateside Air Force bases.

Dr. Berry in THE JOURNAL interview repeated his belief that dental care is a part of medicine and that a dental care program should be included as part of the medical care afforded to Service families.

But, he said, "I would doubt, with the

stringency in appropriations that the whole Department of Defense would go along."

He said his office would support the plan, but after that it would still have to secure the approval of the Defense Department Comptroller, the Assistant Secretary of Defense for Manpower, Personnel and Reserve and Secretary of Defense McElroy.

In the absence of a military dental program for its families, the Air Force had established family dental clinics at Keesler, AFB, Miss., Chanute AFB, Ill., Scott AFB, Ill., and Lowry AFB, Colo.

More clinics were planned.

Each clinic was organized and equipped by the local base commander and financed from non-appropriated funds. They were staffed by young dentists recommended by the local dental societies.

Following a strong protest by the ADA, the Defense Department told the Air Force it could run the four clinics it had already started, but forbade it to establish new clinics.

Dr. Berry said: "we think the Air Force clinics are very good. But the American Dental Association is thoroughly opposed to them."

The ADA had charged that the clinics opened up the possibility of Air Force families receiving substandard dental care because they might not be staffed by first rate personnel.

The dental clinic plan was halted solely because of ADA protest, Dr. Berry said. Dr. Berry said he thought the Air Force clinic plan "is very sensible. I would think it would be very good for adoption by all Services."

The plan would provide well-paid employment and experience for young dentist just starting out on their professions, he said.

"The Air Force clinics are very successful," Dr. Berry concluded. "If the ADA would get behind them, they would help their own men and the Services."

Capt. Wallace Leaves "A" Post For Ship Command

Capt. William E. Wallace, USN, Chief of the Analysis Division of the Defense Atomic Support Agency's Directorate of Weapons Effects and Tests, will take command of the USS Pollux at Yokosuka, Japan.

(Last week's issue of THE JOURNAL published a feature report on the Atomic Support Agency.)

Captain Wallace has been responsible for the past three years for analyzing nuclear phenomena associated with weapons testing and was Chief of the Technical Staff with Task Force 88 which conducted the Argus experiment last year.

He will be accompanied to Japan by his wife, Mary, and their three children, Susan, 14, Richard, 12, and William, Jr., 7.

Navy Captain Heads Alaskan Intelligence

Capt. Lauren E. Johnson, USN, has been designated Alaskan Command Assistant Chief for Intelligence after duty in Washington, D. C.

His wife is the former Eloise Palmer of Honolulu. They and their three daughters reside at Elmendorf AFB.

Two Colonels Get Key Tasks At Air University

Col. William H. Bowers has been named Technical Director, Air Force Educational Requirements Board, and Col. Arthur E. Boudreau, is the new Chief, Curriculum Division, at the Air University, Maxwell AFB, Ala.

Colonel Bowers, a '59 graduate of the Air University's War College, is married to the former Edna Owen of Greenville, S. C. Their children are Bill, 16; and Rosemary, 11.

Colonel Boudreau comes to Maxwell from Japan, where he was Commander of Shiroi AB. Prior to that, he was Director of Admissions, U. S. Air Force Academy, 1954-56. From 1948 until its opening, he worked at planning the establishment of the new academy.

Colonel Boudreau is married to the former Mildred Gummel of Chevy Chase, Md. Their daughter, Mrs. Mary Beth Nance, lives at Daytona Beach, Fla.

Both colonels have joined Air University's newest staff agency, the Deputy Chief of Staff for Education, which began operation 1 July. Headed by Col. Paul T. Hanley, it deals with matters directly related to education and research.

AF Security Service Chief Receives DSM Award

Maj. Gen. Gordon A. Blake, Commander of the USAF Security Service at Kelly AFB, Tex., since January 1959 was awarded the Distinguished Service Medal as he relinquished his command 5 August for assignment as Vice Commander-in-Chief and CoS of the Pacific Air Forces in Hawaii.

Maj. Gen. Millard Lewis will take command of the Security Service in late September. During the interim period Maj. Gen. John Ackerman, Deputy Commander, will be in command.

SALT WATER SHELL GAME

Find the sub. It is somewhere in the ocean basins that cover 70 per cent of the earth's surface. Listen for its motors. Find the hum that is lost in the din of marine life. Keep the sub at a safe distance. With one of its nuclear missiles, it can destroy any U. S. city. Don't be decoyed by a single prowler... an estimated 450

more subs need watching, too. So go the steps in one of history's toughest defense problems. So runs the routine aboard Navy ships and planes. Round-the-clock work reinforced by the efforts of American industry and ingenuity to provide the equipment needed to cut the Free World's biggest menace down to size.

Medical Reactor Under Construction

Construction is under way at Walter Reed Army Institute of Research, Washington, D. C., on a building to house a 50,000-watt nuclear energy reactor.

The building, an addition to the Walter Reed Army Institute of Research, will be 255 by 51 feet, with a 49 by 13 foot wing at each end. The structure, four stories

high, will contain approximately 79,620 square feet.

Completion date is scheduled around 1 May 1961.

The reactor will be installed on the ground floor of the building and is expected to be in operation by the fall of 1960, while construction continues on the remainder of the building.

SCHOOL AND CAMP DIRECTORY

The Schools and Camps listed below are effectively equipped to care for the educational and recreational needs of the children of members of the services and this Directory is recognized as an authentic and reliable aid to service parents in solving the problem of child education. For details as to the Schools listed in this Directory address them directly or communicate with the Army Navy Air Force Journal Dept. of Education, 1710 Conn. Ave., N. W., Washington 9, D. C.

L/G Meloy Decorates Nine Who Retire

Nine Army officers retiring from active duty were decorated recently at Ft. Sam Houston, Tex., by Lt. Gen. G. S. Meloy, Jr., Fourth Army commander. He presented the first Oak Leaf Cluster to the Legion of Merit to Col. John D. Cone, Assistant CofS, Fourth Army, and Col. Chandler P. Robbins, Jr., Senior Advisor, Army Advisor Group (National Guard United States), Texas.

Receiving the Legion of Merit were: Brig. Gen. James P. Hanigan, Deputy Commanding General, Army Training Center, Field Artillery, Fort Chaffee, Ark.; Col. Charles N. Hunter, Deputy CofS for Operations, Fourth Army; Col. William H. Greear, Deputy CofS for Administration, Fourth Army; and Col. Louis A. Hammack, Fourth Army Inspector General.

Maj. James W. Witt, Plans Officer, Signal Section, Headquarters Fourth Army, received the second Oak Leaf Cluster to the Commendation Ribbon, while CWO Frank D. Jones, retiring in the grade of colonel, received the first Oak Leaf Cluster to the Commendation Ribbon. The latter was Chief, Officer Personnel Unit, Adjutant General Section, Headquarters Fourth U. S. Army.

Lt. Col. Robert E. Mitchell, Chief, Services Division, G-1 Section, Fourth Army, received the Commendation Ribbon.

Berlin's Catholic Chaplain

Chaplain (Maj.) Edmund G. Bettinger has joined the US Army's Berlin Command as Catholic Chaplain. He succeeds Chaplain (Maj.) Charles B. Knight, reassigned to Ft. Knox, Ky.

Col. Frederick Will Head New Pacific PX Center

The Army and Air Force Exchange Service will open a new center in Tokyo in October to provide management assistance to exchanges throughout the Pacific and Far East.

Maj. Gen. Harlan C. Parks, USAF, Chief of the world-wide Exchange Service, said the new unit, the first to be established outside the continental United States, will be known as the Pacific Service Center.

Col. Charles R. Frederick, USAF, has been designated as Chief. He has served as Chief of the San Antonio Service Center for the past year.

General Parks said that the activation of the Pacific Service Center will facilitate effective application of the command management concept of exchange operations in the Pacific area. In addition, the new unit is expected to reduce overhead costs by more than \$2 million a year.

Col. Connors To MacDill

Col. Wayne S. Connors, Eighth Air Force comptroller, is leaving Westover AFB to take command of MacDill AFB, Tampa, Fla. Col. George T. Bland, deputy comptroller, will move up into Colonel Connors' vacated post.

Col. J. W. Duncan Is G-3

New G-3 for the Army Armor Center, Ft. Knox, Ky., is Col. James W. Duncan. He replaces Col. E. M. Sleeker, attending the Army War College at Carlisle Barracks, Pa.

Col. Duncan had been Director of Instruction at the Army Armor School.

Commandant Pate Greeted At San Diego

PICTURED above during a San Diego Marine Corps Recruit Depot reception for the Marine Corps Commandant are—Maj. Gen. T. A. Wornham, Depot Commanding General; Mrs. R. G. Weede; General Randolph McC. Pate, Commandant; Mrs. Wornham; Mrs. Pate; and Brig. Gen. Weede, Commanding General of the Depot's Recruit Training Command. The event was held during General Pate's first stop on a tour of West Coast Marine installations.

THE Hospitality program of the Air Force Officers' Wives' Club of Washington, D. C., was inaugurated 5 August with a coffee held at the home of Mrs. Leon Windsor. Honored guests, first of many new arrivals which the summer season always brings to the Washington area, were Mesdames J. O. Cadenhead, jr., W. F. Stewart, W. T. Perske, Zeb Vance, jr., H. A. Brandon, J. S. Nash,

W. R. Peck, W. F. Crate, J. T. Halut, and Sidney Nutt, jr.

Assisting the hostess, Mrs. Windsor, were Mrs. Walter E. Mangerich, Mrs. Warren L. Lockhart, and Mrs. R. C. Stewart. Also attending the coffee were Mrs. C. E. Cocke, jr., Mrs. B. W. Humphries, and Mrs. George Hewitt, who welcomed the newcomers on behalf of the Board of the Air Force Officers' Wives Club.

Chemical Center Wives Open Busy Season

The Army Chemical Center, Md., Officers' Wives Club will open its season with a tea 25 August, it is reported by Mrs. Stoessel S. Barksdale, President.

A benefit for the Army Distaff Club and Nursing Home Foundation is scheduled for early October.

The officers, in addition to Mrs. Barksdale, are Mesdames Eugene Bennett, 1st Vice-President; Charles McNary, 2d Vice-President; Ernest Clovis, Secretary; Lawrence Forkhamer, Treasurer; and James Benson, Corresponding Secretary.

Committee Chairmen are Mesdames Charles Robbins, Hospitality; Samuel Smith, Reservations; George Roberts, Thrift Shop; Eugene Them, Youth Activities; Joseph Brinkley, Social Activities; and John Pierce, Ways and Means.

Chaplain O'Connor Arrives At Air Force Academy

Chaplain (Col.) Stephen J. O'Connor is the new Catholic Cadet Chaplain at the USAF Academy. He succeeds Chaplain (Col.) Constantine E. Zielinski, who leaves active duty this month to return to a post with his religious order at St. Mary Minor Seminary, Crystal Lake, Ill.

Chaplain Zielinski was the Academy's first Catholic Cadet Chaplain.

Father O'Connor, a Redemptorist, recently celebrated his 25th anniversary in the priesthood with a Silver Jubilee Mass at St. Anthony's Church, Cohasset, Mass., where members of his family are parishioners.

This spring he completed 10½ years of travelling throughout the world as a member of the Air Force's Catholic Mission team. In serving Catholic members all over the globe, Father O'Connor travelled approximately 643,000 miles by air, logged nearly 2,600 flying hours and with fellow missionaries, held 447 five-day missions with an overall attendance of 775,110.

Distaff Project Gets Iran Help

The Army Distaff Project has gained help from the U. S. Army Mission in Iran.

Maj. Gen. and Mrs. Roy E. Lindquist personally supported and supervised the activities of the drive.

Contributions totalling \$366.86 were presented to Mrs. Lindquist by Maj. John D. King, ARMISH-MAAG Project Officer, for forwarding on to Mrs. Maxwell D. Taylor in Washington, D. C.

Capt Ferderber Wins Ft. Knox Art Contest

The Women's Club of Ft. Knox, Ky., Officers Open Mess has sponsored a post-wide art contest to find a winter scene suitable for a Ft. Knox Christmas card.

A first prize of a \$100 U. S. Savings Bond and a second prize of a \$25 Bond were donated by the Club.

Judges chose "Winter at Fort Knox" by Capt. Charles J. Ferderber as the winning entry.

Mrs. O. W. Dillon, wife of Lt. Dillon, USAARMS Troops, with her "Chapel at Fort Knox" was the second winner.

Three other entries were so good that the judges awarded Honorable Mentions. One was the second entry by Captain Ferderber, and the other two were sent in by Pvt. R. W. Fleurant, former advertising art student of New York City, and now a tank crewman at Ft. Knox.

Captain Ferderber has had no art training. Mrs. Dillon was majoring in art in Cincinnati when she married.

The Womens Club hopes to have the new Christmas cards for sale at their first social event of the year—a Tea next month in the gardens of Mrs. W. Paul Johnson, wife of the Commanding General.

Gas Refund Checks

I am sending in this request for the good of the Armed Services, suggesting that you publish a notice in THE JOURNAL stating that:

All members of the Armed Forces that served in the State of Colorado and paid Public Service of Colorado utility bills for natural gas consumption during the period of February 1954, to present date, should notify (Public Service of Colorado, Denver 1, Colorado) of your old address and your present address as Gas refund checks are now being mailed.

W. R. COVINGTON, DAC
ARMY POST OFFICE
FITZSIMONS ARMY HOSP.
DENVER 30, COLO.

VA Loan Deadline

The Veterans Administration has warned WWII veterans that they have less than a year to apply for a GI home, farm or business loan.

The cut-off date for applications is 25 July 1960. However, the law allows an additional year for the processing and actual closing of loans.

Korean veterans have until 31 January 1965 to make loan applications. WWII veterans who also served in Korea are considered Korean veterans for loan purposes.

Service Folk

Mrs. Lottie E. Thomas, 82 year old mother of Lt. Col. Frank L. Thomas, Griffiss AFB, N. Y. Aero Club Operations Officer, recently took her first point to point flight in a small aircraft. She flew with her son from Altoona, Pa., to Griffiss AFB, New York, a distance of approximately 225 miles. Mrs. Thomas is a grandmother to eight, and a great grandmother to nine children.

Capt. Edward Metzner of Ft. Sill, Okla., will be the only U. S. Army officer enrolled in the Royal Canadian School of Artillery's 52-week Staff Course at Camp Shilo, Manitoba, when classes get underway next month—the second American officer so honored. The course is similar to the Advanced Artillery Officer's course here at Sill, although of longer duration.

Aristies Gonzalez, 16-year-old son of Maj. and Mrs. Gilberto Gonzalez of Ft. Leavenworth, Kan., will be a member of the Puerto Rican Swimming Team participating in the Pan-American Games in Chicago, 27 August through 7 September.

Stanley A. Mattison, a WW II Navy Lieutenant Commander, has been appointed Washington Manager for Hooker Chemical Corporation, Niagara Falls, N. Y. He has established offices at 801 19th Street, N. W., Washington 6.

Service Weddings And Engagements

MAJ. GEN. (USA-USMA '31) and Mrs. Edwin J. Messinger of Arlington, Va., announce the marriage of their daughter, Claire Jean, to 1st Lt. Frank M. Gallo, jr., son of Mrs. Frank Gallo, 1107 Mohawk St., Utica, N. Y. Chaplain (Capt.) Frederick C. Sweeney performed the double ring ceremony 1 August at Pioneer Kaserne Chapel, Hanau, Germany.

General Messinger, who is assigned to the Joint Staff, Joint Chiefs of Staff, Washington, D. C., escorted his daughter to the sanctuary and gave her in marriage. Mrs. G. E. Galloway was matron of honor, and bridesmaids were Mesdames Ted Hogan, Richard Mackin, Dan Fischer and John Pick.

Serving as best man was Capt. Charles E. Hill, jr., CO of Battery A, 73d Artillery, 3d Armored Division, Germany.

The bride attended Ladycliff College, Highland Falls, N. Y.

Lieutenant Gallo, a 1956 political science graduate of Georgetown University, Washington, D. C., is assigned to Battery A, 73d Artillery, 3d Armored Division, APO 39, New York, N. Y.

SLOANE-GAMON—Capt. (USN) and Mrs. John A. Gamon, jr., 15 First St., Honolulu 18, T. H., announce the engagement of their daughter, Helen Mae, to Mr. Samuel Keith Sloane, son of Mr. William Hampton Sloane and the late Mrs. Sloane of San Diego.

BURGER-PETERS — Col. (USA) and Robert E. Peters, 2006 Columbia Pike, Arlington 4, Va., announce the engagement of their daughter, Patricia Sharon, to 2d Lt. Joseph C. Burger, jr., USMC, son of Maj. Gen. (USMC) and Mrs. Joseph C. Burger, Camp Lejeune, N. C.

Miss Peters attended Mary Washington College of the Univ. of Virginia, Fredericksburg. Lieutenant Burger was graduated from Duke University where he was a member of Pi Kappa Alpha fraternity. He is stationed with the 1st Mar Brig, Kaneohe Bay, T. H.

The wedding is planned for 17 October at the Post Chapel, Ft. Myer, Va.

FORSMAN-HARDMAN — Cdr. (USN) and Mrs. W. Calhoun Singletary of Los Alamitos, Calif., announce the engagement of her daughter, Miss Gretchen Louise Hardman, to Ens. Charles Joseph Forsman, USN, USNA '58, son of Mr. and Mrs. Walter Forsman, Rhinebeck, N. Y.

Miss Hardman is also the daughter of Capt. Ward F. Hardman, USN, and the granddaughter of Capt. William Lorne Irvine, USN, MC - Ret, and the late Mrs. Irvine of San Diego. She attended private schools in Norfolk, Va., and Newport, R. I., and has completed two years at Mills College, Oakland, Calif., where she was Sophomore Governing Board Representative for Olney Hall; Sophomore Class Treasurer; Olney Hall Social Chairman; a member of the campus Central Social Committee and on the Dean's List scholastically. She is a member of Tau Omicron Phi, Service juniors' sorority.

Ensign Forsman attended the College of the Holy Cross in Worcester, Mass. He is assigned to the USS Maddox.

A September wedding is planned.

CHAPIN-MOREHEAD—Mr. and Mrs. Richard M. Morehead of Austin, Tex., announced the engagement of their daughter, Judith, to Lt. Gordon R. Chapin at a morning coffee given 1 August at the Westwood Country Club in Austin.

Miss Morehead, a junior year biology major at the University of Texas, is a member of Alpha Phi sorority. She is a past president of Alpha Lambda Delta, national scholastic honor society for freshman women; an advisor for Blanton Dormitory, and a member of Westminster Student Fellowship.

Lieutenant Chapin, son of Mr. and Mrs. William H. Chapin, Remus, Mich., is a graduate of Michigan State University. He is stationed at the Austin headquarters of the VIII U. S. Army Corps (Reserve).

The wedding is planned for 29 December at the University Presbyterian Church in Austin.

Miss Hardman

Photo by Van Durand
Miss Peters

BROWNFIELD-DAVIDSON — Col. (USA) and Mrs. A. H. Davidson, Jr., of Quarters 3, Ft. Belvoir, Va., announce the engagement of their daughter, Patricia Ann, to 1st Lt. William I. Brownfield, son of Mr. and Mrs. Pope H. Brownfield of Orlando, Fla.

Miss Davidson was graduated this year from Mary Washington College. Colonel Davidson is Director of the US Army Engineer Research and Development Laboratories at Ft. Belvoir.

Lieutenant Brownfield, a 1957 graduate of the Citadel with a degree in electrical engineering, is aide-de-camp to Brig. Gen. J. H. Dudley, Assist. Commandant of the USA Engineer School. The wedding is planned for 29 August at Ft. Belvoir.

Miss Davidson

DAY-MALONE — Dr. and Mrs. James G. Malone of Kalamazoo, Mich., have announced the engagement of their daughter, Stephanie Ruth, to 2d Lt. John F. Day, 3d, son of Col. (USA) and Mrs. J. F. Day, Jr., of Wallingford, Conn.

Miss Malone is a graduate of Wellesley College, Wellesley, Mass.

Her fiancé received a B. S. in physics and M. S. in mechanical engineering from the Massachusetts Institute of Technology, where he is a member of Delta Upsilon fraternity. He is assigned to the 2d Infantry Brigade, Ft. Devens, Mass. The wedding is planned for 3 October.

Sheppard NCO Wives Install New Officers

Members of the Noncommissioned Officers Wives Club, Sheppard AFB, Tex., honored Mrs. J. H. Wallace and installed officers for the ensuing term at a recent tea.

Mrs. Robert Thulin, outgoing President, and Mrs. Carl Gillihan, new President, presented a brass and crystal punch bowl to Mrs. Wallace as a farewell gift from the members.

Chaplain (1st Lt.) Donald O. Chilton installed the recently elected officers in a candle ceremony illustrating the theme, "Family Life in the Air Force."

Heading the club activities with Mrs. Gillihan for the coming term are Mesdames Dominic Farruggia, First Vice President; Leonard Robison, Second Vice President; William E. Turner, Secretary; Stan Simonson, Assistant Secretary; Gilbert Betterton, Treasurer; and Amado Gonzalez, Assistant Treasurer.

USNA Parents Weekend Set For 28-30 August

Parents and guardians of the U. S. Naval Academy's Class of '63 have been invited to attend the 10th annual "Parents Open House" at Annapolis on 28-30 August.

Approximately 1,200 parents and members of the family are expected to be present for the three-day affair.

The weekend is designed to give parents of the Plebe class an understanding of the life their sons will lead as members of the Brigade of Midshipmen. Athletic exhibitions, YP boat trips on the Severn River, "Open House" in the academic departments, and many other special events have been planned for each day during "Parents Weekend."

Highlighting the program year will be the two-hour Parent's Forum scheduled for Saturday evening in the Field House. RAdm. Charles L. Melson, Superintendent, will preside over the question and answer period assisted by the Commandant of Midshipmen and Directors and Heads of Departments. The Forum is designed to answer questions posed by the parents of the Midshipmen and to inform them of the training curriculum and facilities.

SCHLOSSER-FREEMAN — Lt. Col. and Mrs. W. E. Freeman, of Tacoma, Wash., announce the engagement of their daughter, Elizabeth Anne, to Mr. Robert J. Schlosser, son of Mr. and Mrs. J. C. Schlosser of Oakland, Calif.

Miss Freeman is a graduate of the Academy of Richmond County, Augusta, Ga., and attended the University of South Carolina where she was affiliated with the Pi Beta Phi sorority.

Mr. Schlosser received his B.A. in English from the University of San Francisco.

The wedding will take place 10 October.

KAISERMAN-ELLIOTT — Miss Sylvia Arlene Elliott, daughter of Maj. (USA-Ret.) and Mrs. Henry Elliott, 2703 E. 17th Ave., Anchorage, Alaska,

and 1st Lt. Donald B. Kaiserman, son of Mr. and Mrs. Joseph B. Kaiserman of Elizabeth, N. J., were married 25 July in Chapel 1, Ft. Richardson, Alaska. Chaplain Thomas Blomstrom performed the ceremony.

Mrs. Walter B. Wong of Honolulu and Ft. Richardson was matron of honor and 1st Lt. Louis P. McFadden was best man.

Ushers were 1st Lt. Walter B. Wong, CWO Howard Mayberry and CWO Joseph P. Duffy. Lt. Gilbert Batchman commanded the honor guard.

The bride is a spring graduate of Transylvania University, Lexington, Ky. She is a member of Chi Omega sorority and a past president of the Organization on International Relations at Transylvania.

Lieutenant Kaiserman was graduated from Pingry School in Elizabeth, N. J., and Bucknell University, Lewisburg, Pa. He is a member of Phi Kappa Psi fraternity.

Following a wedding trip to San Francisco and Hawaii the couple will live at Ft. Richardson, where Lieutenant Kaiserman is assigned as an aviator with the 80th Transportation Company.

Chaplain Moss Completes Marriage Counsel Course

Chaplain (Maj.) Albert R. Moss has assumed duties with the Fourth Army Chaplain's Section at Ft. Sam Houston, Tex., after one year of marriage counseling study at the famous Menninger Foundation in Topeka, Kans.

A minister for seven years before entering military service in February, 1944, Chaplain Moss has served overseas in England, Germany, Okinawa and Turkey.

From 1950 to 1951 and from 1953 to 1955, Chaplain Moss served at Ft. Hood, Tex., with the 1st and 2d Armored Divisions.

With his wife, the former Virgel Hall, daughter of Captain and Mrs. E. J. Hall, Tice, Fla., and five children, Chaplain Moss resides at 115 Natalen, San Antonio.

Rheem Gets Army Contract

Rheem Manufacturing Co., Downey, Calif., has received a \$4,852,228 Army contract for an AN/USD-2 surveillance system. The Army Electronics Proving Ground Procurement Office, Fort Huachuca, Arizona, awarded the contract.

TARTAR MISSILE GOES INTO PRODUCTION

THE Navy's surface-to-air Tartar missile has gone into production and will join the fleet next year as the primary armament of destroyers now under construction. Tartar also will be used as secondary armament of three missile cruisers undergoing conversion.

Built at the Pomona, Calif., plant of the Convair Division of General Dynamics Corporation, Tartar was developed for the Bureau of Ordnance under technical direction of the Applied Physics Laboratory of Johns Hopkins University at Silver Spring, Md.

Tartar, about 15 feet long and slightly over one foot in diameter, powered by a small stage solid fueled, dual-thrust rocket motor designed and developed by Aerojet General Corporation of Azusa, Calif.

50 New Captains Made 11 August

Sperry Silent Sentry Accents Transistor Use

An Army radar set, which can detect enemy movement at short ranges under the cover of darkness, smoke or fog, has been greatly improved through the use of transistors, the Army reported at the AUSA meeting.

Known as the Silent Sentry, AN/PPS-4, the improved set is the result of a joint program by the Army Combat Surveillance Agency and the Speery Gyroscope Company of Great Neck, N. Y., which was recently awarded a \$3.5-million production contract for the equipment.

Power requirements for the improved version are reduced by half by switching from tubes to transistors. The new set will use a battery instead of the gasoline generator. Elimination of the noise-making generator enhances the silent characteristic of the small radar and results in improved maintenance and logistics.

First disclosed in 1956, the highly-mobile Silent Sentry is both rugged and light. Movements of tanks, trucks or troops are translated into identifiable sounds produced in the headsets worn by the soldier operator. Using these "electronic ears," the operator is able to pick out and pin-point the movement of targets within an area up to three miles.

The radar greatly reduces an enemy's prospect of obtaining the advantage of surprise. The set can detect the difference between a walking and running man.

The Navy has established a 16-week course in Naval Personnel Management for senior Allied officers. Objective is to provide officers of friendly countries with an opportunity to discuss and observe practices and procedures in the fields of personnel administration and training.

The first group will attend classes until 10 November. The officers come from China, Peru, Chile, Colombia, Canada, Ecuador, Japan, Korea, Italy, Turkey, Philippines, Greece, United Kingdom and Vietnam. They range in rank from lieutenant commander to rear admiral.

The visiting officers are the equivalents of the U. S. Navy Chief of Naval Personnel, or are being groomed for high-ranking personnel administration positions in their respective countries.

CWO McComas Assigned To Tyndall Drone Unit

Chief Warrant Officer Don C. McComas has been assigned to the 4756th Drone Squadron at Tyndall AFB, Fla. He holds two DFC's, five Air Medals and one Soldiers Medal.

Maj. Robinson At Arsenal

Maj. John T. Robinson, who recently returned from Germany, has been assigned to Frankford Arsenal, Philadelphia, as Chief of the Maintenance Division, Field Service Group.

Major and Mrs. Robinson have three children.

Col. Collins Heads Hospital

Col. Glenn J. Collins, MC, has assumed command of the Army Hospital at Ft. Leonard Wood, Mo., replacing Col. John T. B. Strode, MC, Post Surgeon and Commanding Officer of the hospital at Ft. Belvoir, Va.

What's Ahead

The Naval Reserve Association will hold its national meeting in Atlanta, Ga., 5-10 October. Naval officers desiring further information about the conference should write Cdr. M. E. Gambrell, Jr., 703 Densley Drive, Decatur, Ga.

Department of the Army Conferences on Personnel-Management For Executives have been scheduled for: Ft. Sill, Okla., 16-25 September; Denver, 21-30 October; Ft. Sam Houston, Tex., 20-29 January; and Dallas, 20-29 April. Military and civilian executives are eligible to attend.

M/G McGarr Tells Staff-Faculty Changes At Leavenworth; Col. Frink is S/A

The following changes to the staff and faculty for the 1959-1960 academic year at the Army Command and General Staff College are announced by Maj. Gen. Lionel C. McGarr, Commandant and Commanding General of Ft. Leavenworth, Kans.

Col. James L. Frink, jr., Artillery—special assistant to the Assistant Commandant, USACGSC.

Col. Hughes L. Ash, Infantry—CofS, USACGSC.

Col. Edgar S. McKee, Infantry—Secretary, USACGSC.

Col. Robert H. Schellman, Infantry—Chief of Resident Instruction and Director of the Department of Larger Units and Administrative Support, USACGSC.

Col. Robert C. Ingalls, Artillery—Class Supervisor.

Col. Robert H. VanVolkenburgh, jr., Artillery—Chief, Department of Nonresi-

dent Instruction.

Col. Oliver G. Kinney, Infantry—Chief, Department of the Infantry Division.

Col. Robert C. Works, Infantry—Chief, Department of Combat Developments.

Lt. Col. Robert M. Bringham, Infantry—Chief, Personnel Division.

Lt. Col. Clifford E. Lippincott, Armor—Chief, Administrative Services.

Lt. Col. Max H. Gerard, Artillery—Chief, Operations and Security section.

Maj. John C. Shaydak, Signal Corps—Chief, Editing and Publishing Service.

The Commandant also announced the addition to the staff and faculty of Lt. Col. Donald H. Rochester of the Canadian Army. The addition of the Canadian Section to the College will bring to a total of four Allied nations represented on the staff and faculty of the College. The others are Great Britain, France and Brazil.

WEST POINT MAKES CURRICULUM CHANGES

THE Army has announced that "certain modernizations" will be made in the curriculum of the U. S. Military Academy effective in September.

Primarily designed to expand the basic scientific content of the curriculum, particularly with regard to instruction in nuclear physics and astronautics, these changes are the first of a series to be submitted for approval.

An Army announcement said:

"During the last two and one-half years the program of self-evaluation at the Military Academy has been intensified. The aim of the study has been to insure that the current instruction at West Point is designed to best meet the probable demand on the graduates in the foreseeable future (the period 1968-1978).

"The changes just approved, in addition to promoting the scientific content of the curriculum, also will broaden the coverage of the social sciences and humanities, including the communication skills. The necessary time for this added instruction will be gained by eliminating parts of the present program and rescheduling elements of the vocational instruction in the summer training period instead of during the academic year."

There's Discrimination Against Some Men In Uniform; Only Female Service Nurses Can Attain Regular Commissions

IT'S possible within the next decade—provided the law is changed—that the Chief of the Army or Air Force Nurse Corps could be a man, but there is no such prospect in sight for the Navy, regardless of the law.

Male nurses in the Army or Air Force can aspire to the number one post in each Service only if they are given equal rights with women. At present, female nurses alone are allowed to hold Regular appointments.

The Navy has no male nurses on active duty and plans no such appointments.

The Army has about 235 male nurses on active duty out of a total Nurse Corps strength of 3,400.

The Air Force nurse strength of 2,700 includes about 130 male officers.

All of the male nurses in the Army and Air Force are Reserve officers. The Army-Navy Nurses Act of 1947 stipulates that only unmarried females may be commissioned in the Regular nurse components of the Armed Forces.

The Navy has provided the following explanation for its male nurse policy decision.

"The provisions of P.L. 294, effective 9 August 1955, have not been utilized by the Navy because we have a well-organized group of hospital corpsmen who provide efficient nursing care to patients in the Navy, both ashore and afloat.

"Avenues and opportunities for advancement to commissioned grades in the

Medical Service Corps are provided to the best qualified.

"The existing number of qualified male nurses is so limited (less than 1% of total professional nurses) that the Navy could not expect to commission enough male nurses to substantially alleviate the nursing shortage if a program were established.

"As our corpsmen advance in rating, they become highly qualified and well-trained. Sea and foreign service assignments to which male nurses could be detailed have been filled by members of the Hospital Corps since its establish-

ment in 1898. Rated hospital corpsmen are given special training for such utilization and have performed effectively to meet the Navy's needs in peacetime and combat."

Unlike the male nurse regulations, current laws and regulations permit female physicians and dentists to enter the Regular components of the Armed Forces.

Senior male nurse in the Army is Maj. Edward Davis stationed at Ft. Bragg, N. C.

Capt. Stephen Taras, stationed at the 7100 Air Force Hospital, Wiesbaden, Germany, is the Air Force senior male nurse.

Maj. Cordelia Myers Chosen Therapist Chief

MAJ. Cordelia Myers, AMSC, will become appointed Chief, Occupational Therapist Section and Assistant Chief, Army Medical Specialist Corps, on 10 October succeeding Lt. Col. Myra L. McDaniel, AMSC, Chief Occupational Therapist since October 1955. Major Myers, who will be promoted to lieutenant colonel, has been Chief Occupational Therapist at Brooke Army Hospital, Ft. Sam Houston, Texas.

Graduated from the University of Kansas in 1937, the new Chief completed her professional education as an Army student at the School of Occupational Therapy, Richmond, Va., Professional Institute, in 1946. In 1955 she was awarded a Master of Arts degree in occupational therapy at New York University.

Major Myers has served as an occupational therapist with the Army Medical Service since March 1946. Her assignments have included service in both the Technical Liaison Office and the Officer Procurement Branch of the Army Surgeon General's Office. She has also served as Chief, Occupational Therapy Section, Murphy Army Hospital, Waltham, Massachusetts, and at Letterman, Madigan and Walter Reed Army Hospitals.

RESERVE PROMOTIONS—

To Colonel

Mornston, Harry E.

To Lt Colonel

Lowe, Roger D.

To 1st Lieutenant

Martin, Joseph G.

Services, 11 Aug in Laguna.

CROWFLIGHT ENDS

The Air Force's "Operation Crow-flight," the high altitude sampling of air over Argentina, has been completed.

Approximately 150 Air Force personnel participated in this program to collect more precise information about clear air turbulence cloud formations, wind shear, jet streams, and fission product, up to 55,000 feet altitude. It is anticipated that all personnel and equipment used in this operation will have departed from Argentina by August 15.

Crowflight was completed in less than 16 months, 10 weeks ahead of schedule.

Preliminary results of the air sampling program conducted by the Air Force in Argentina as well as in other parts of the world have been transmitted to the Argentine government as they became available.

M/G Ennis Greets 200 All-Service Students In Army War College '59-60 Class

The 200 students of the 1959-60 Class at the Army War College, Carlisle Barracks, Pa., began their 10-month course 14 August with a welcoming address by Maj. Gen. William P. Ennis, jr., Commandant.

Faculty Group Chairmen Col. Lydon B. Cole, Col. Charles H. Dayhuff, jr., and Col. Alexander Graham, outlined the curriculum.

Course No. 1 covers "National Purposes and National Power of the United States and the Soviet Union."

The class includes 176 Army officers, four Navy, four Marine Corps, 10 Air Force and six civilians.

Navy members of the class are Cdr. Myrton T. Ebricht, Edward G. Miller, Russell T. Stephens and Champ Thompson. Marines are Cols. Earl E. Anderson, George W. Killen, Donald M. Schmuck and Austin C. Shofner.

The Air Force is represented by Cols. Henry M. Fletcher, Joseph H. Perry, Robert W. Siegmund, Paul R. Stoney, Joseph G. Wilson, and Lt. Col. William J. Evans, George W. Franklin, Harold A. Kohnert, Lawrence P. Mayland and Thomas G. Monroe, jr.

Col. Joseph R. Henry, Chief of Professional Services at Tachikawa AB Hospital, returns to the States from Japan this month for a similar post at Keesler AFB, Miss.

John Hay Air Base in the Philippines will be the scene of the ninth annual Pacific Air Forces Medical Conference 29 November through 2 December. Maj. Gen. O. K. Niess, USAF Surgeon General, has been invited to be a featured speaker.

Col. Joseph A. Baird, MC, USAF, is the new Commander of the USAF Hospital at Eglin AFB, Fla. He was formerly Surgeon for the 3d Air Force in England.

Colonel Baird is married to the former Miss Bessie Danhart of Pittsburgh, Pa. They have a son who is a lieutenant in the Medical Service at Davis-Monthan AFB, Ariz., and a daughter who is married to a Navy lieutenant.

Maj. Ervin L. Sanders, MSC, has been appointed Chief of Classification and Assignment Section in the Army Surgeon General's Personnel and Training Division. He came to this assignment from Walter Reed Army Medical Center, Washington, D. C., where he had been Chief of the Military Personnel Branch since 1954.

Major Sanders is married to the former Miss Nancy Van Roekel of Sheldon, Iowa. They reside at 6410 Tisdale Terrace, Bethesda, Md.

Capt. Robert P. Irons, DC, USN, has retired after almost 32 years service.

Col. John Rizzolo, USAF (MC), has been named Executive Secretary of the tri-Service Armed Forces Epidemiological Board, succeeding Capt. R. W. Babione, MC, USN-Ret. Colonel Rizzolo, Assistant Executive Secretary of the Board since 1958, resides with his wife, Lillian, at 3246 S. Stafford St., Arlington, Va.

Washington Duty? If you are anticipating a Washington tour write for our free brochures and maps describing and locating our new homes in nearby Virginia. Split levels, ramblers and bi-level homes from \$19,675 to \$36,000 are available in the Town of Fairfax and the McLean-Langley area. Some are available with GI financing. Multiple Listing Service, with a selection of over 500 resale homes is also available through our office. Write or call Luria Bros. Realtors, 2048 Wilson Blvd., Arlington, Va., JA 7-8500.

ROUTH ROBBINS—serving the military in the Washington area for ten years — says send for our **FREE MILITARY RENTAL AND SALES BULLETIN**. A complete discussion of the pros and cons of renting versus buying. A complete rental department to serve you. New and resale homes in the areas of Alexandria, Arlington and Fairfax. We handle all of the leading subdivision and will forward brochures upon request. Down payments from \$500.00. G.I. Service to the service from a service organization. Write or phone **ROUTH ROBBINS REAL ESTATE CORPORATION**, North Washington at Madison Streets, Alexandria, Virginia, KIng 8-4000.

PERFECT FOR RETIREMENT. Modern frame home, 2 bedrooms, bath, den, living room, kitchen, dining nook, breezeway, garage. One of prettiest locations in this area, a 2-acre point, water 3 sides. Beautiful views, dock, \$13,250. Capt. H. C. Robison, U.S.N. (Ret.), Broker, White Stone, Va.

UNIQUE OPPORTUNITY FOR RESIDENTIAL OR COMMERCIAL DEVELOPMENT. Close to proposed Bolling Air Force Base Officers Club Recreation Center—more than 30 square acres cleared rolling pasture land with 1,050 ft. frontage. West side Virginia highway #229 just 2½ miles south of U. S. highway 211. Price \$26,500. To handle \$15,000 cash and 5% 1st trust to owner. **LUTHER B. STUART**, Amissville, Virginia.

TOWN OR COUNTRY! Best Virginia locations! City or country minded. "Town & Country" has the finest coverage of available houses in beautiful Northern Virginia. FHA In-Service; GI Conventional Financing. Assisting service personnel is our specialty. ½ block from Presidential Gardens. Upon your arrival, our office car is at your disposal. Write, wire or call Temple 6-1415 Collect! **TOWN & COUNTRY REALTY**, 3806 Mt. Vernon Avenue, Alexandria, Virginia, Temple 6-1415.

AUTOMOBILES

FORDS — Serving West Point & Army Officers since 1932. ENORMOUS consideration given to Officers and Army Personnel on the purchase of a new Ford. Wm. H. Avery, Avery Motors, Route 9-W, Highland Falls, N. Y.

NEW CHRYSLERS and PLYMOUTHS at lowest delivered price. No State Sales Tax. Full warranty and service. Authorized dealer. Free information. Pearson, Hurrville, N. J.

SWEETHEARTS of officers find the way to his heart with a gift set of rank and corps insignia. Free pamphlet. L. G. Balfour Co., Attleboro, Massachusetts.

MILITARY CAPS

MORRY LUXENBERG offers **FREE**, "CAP-TOTER," (handsome case for carrying two Caps plus accessories) with purchase of Air Force Officer's Gabardine Cap \$16.50. Colonel \$24.50. (Write for price list of other items.) Morry Luxenberg Co., 45 East 30th St., New York City 16.

NEW FURNITURE

Your best buy in the Washington, D. C. area in better grade new furniture. Save at least 30% or more. Shop them all—but compare our prices before you buy. **BROTHERS FURNITURE COMPANY**, Bailey's Cross Roads, Alexandria, Virginia. Jefferson 2-6900.

OPPORTUNITY AVAILABLE

EXECUTIVE ASSISTANT FOR CUSTOMER RELATIONS. Nationally known textile company desires man of maturity and experience to work at headquarters in liaison between management and visiting customers. A splendid opportunity for retired military personnel to supplement retirement income in the happy environment of a small Southern City. Reply to Box 228, THE JOURNAL.

PHOTO SUPPLY

Photo slide mounts, heat seal, top quality S-M brand, patented construction. 2"x2" sizes, 50 @ \$1.00; 100 @ \$1.50. 2½"x2¼", 1½"x2¼" and Stereo, 50 @ \$1.75; 100 @ \$3.00. Prices apply in U. S. only. **VALVIEW PHOTO MOUNT SUPPLY**, P. O. Box 767, Binghamton, New York.

RIBBONS AND MEDALS

MINIATURE MEDALS. Military Ribbons. **DAVID SANDO**, P.O. Box 6293, Washington 15, D. C.

WANTED

Insignia, buttons, uniforms, weapons, and any accoutrements used by US military before 1900. For personal collection. Major Richard Johnson, 9535 Terrace Place, Annandale, Virginia.

ALL-SERVICE AUDIENCE

A classified ad in The Journal reaches members of ALL the Armed Forces. This across-the-board coverage assures results.

USS Dewey Will Get First New Terrier; \$34.4 Million Contract To Convair

A new version of the surface-to-air guided missile "Terrier" will become operational in the Fleet this year.

First ship to be equipped with the "advanced" weapon, the Navy said, will be the guided missile frigate, USS Dewey, scheduled for commissioning 4 December.

The Navy said production of the improved Terrier "will significantly increase the effectiveness of its missile defense against air attack."

A \$34.4 million contract for production of the missile was awarded 19 January to the Convair Division, General Dynamics Corp., Pomona, Calif.

"The weapon," the Navy continued, "has vastly improved performance com-

pared to the original Terrier." The supersonic Terrier currently installed aboard Fleet ships has a range of about 10 miles. The existing Terrier has been operational since January 1956.

The Navy plans to install the superior Terrier aboard the nuclear-powered ships Enterprise (attack aircraft carrier); Long Beach (cruiser); and Bainbridge (frigate).

Like its predecessors, the new Terrier will be used to support Marine land forces who fire the missiles from mobile ground launchers.

"The advanced missile," the Navy said, "will be able to intercept any present-day supersonic bomber many miles from its intended target."

Capt. Williams Heads Bainbridge

Capt. Jack B. Williams, reporting from Guantanamo Bay, Cuba, where he was CoS and Aide to the Naval Base Commander, has taken command of the Bainbridge, Md., Naval Training Center.

He is married to the former Polly T. Ferguson of Annapolis, Md. They have three children; Carol, 19, Polly, 16, and Jack, 13.

Witt Family Chooses San Antonio

Maj. James W. Witt, 37, Plans Officer of the Signal section, Fourth Army, will retire 31 July at Ft. Sam Houston, Tex. after 20 years service.

With his wife, Ellen, and three children, Stephen, 5, Jaime, 4, and Sharon, 2, he will continue to reside in San Antonio at 2819 Knight Robin Drive.

General Chidlaw Warns Against Unduly Restrictive Limitations On Retired Officers

General Benjamin W. Chidlaw, USAF-Ret., has cautioned the Hébert Special Investigation Subcommittee that unduly restrictive limitations on the activities of former military officers "could have far reaching consequences upon the Armed Forces."

General Chidlaw, Vice President and member of the board of Directors of Thompson Ramo Wooldridge, Inc., told the Subcommittee he had never encountered any evidence of "influence peddling" by former retired officers in his 33 years of military service.

During the "many years" he spent in the materiel development, procurement and production side of Air Force activities, General Chidlaw said "never once can I remember being 'pressured' by a senior retired officer to follow a course of action, or asked to direct a specific program or project to his own selfish interests."

Agrees With Gen. Bradley

He said he agrees with General of the Army Omar N. Bradley (THE JOURNAL, 25 July) that former members of the Services "can contribute a great deal to industry." General Chidlaw added that they also can "contribute in great measure to the defense posture of our country."

The Thompson Ramo Wooldridge executive told the Hébert committee that his base salary is \$60,000 and that he receives an average of about \$20,000 additional under a company plan, plus retired pay of \$12,168.

He said in answer to a committee questionnaire that the amount of his initial military retired take-home pay is deducted by the corporation "in considering the total yearly salary paid to me, in order to bring my personal annual salary income from both sources generally in line with that paid to other senior vice presidents and directors."

Chairman F. Edward Hébert (D-La.) said that the corporation, in other words, "let the Government pick up part of the tab."

General Chidlaw denied that this was the corporation's motive. He said the arrangement had been made as a simple means of assuring that his income and that of other comparable executives of the firm was on approximately the same level.

Discussing the employment of retired officers by defense industries, General Chidlaw said, "Most senior officers of high rank obtained that position in their respective services by being good organizers, able administrators, and by possessing those somewhat intangible but nonetheless invaluable qualities of strong leadership and broad understanding of human relations." He said "these same factors of knowledge of proper organization, good administration, and strong leadership are equally valuable to industry."

Retired Aid Defense

The former Continental Air Defense Commander, who retired in 1955, said it is his "sincere belief" that the Hébert investigations "will ultimately disclose instances in which the Services have been materially aided in obtaining new and better weapons—and obtaining them sooner—due to the counsel, advice and direction of former military men now retired from active military service and working in various industries which contribute to the nation's defense posture."

He said it seems apparent, however, that Congress thinks more definitive and more readily understood rules, regulations "and/or possible legislation" is needed, or the committee wouldn't be studying the problem.

He strongly urged that such rules or new legislation "if and when proposed, insure that the defense needs of our country and the needs of our defense industries are not prejudiced by unduly restrictive limitations on the activities of former military officers, or civil servants, who have spent the major portion of their adult lives in dedicated service to their country and who still are able to contribute in considerable measure to the

progress of weapons development for our Armed Services."

General Chidlaw said "unduly restrictive legislation could have far reaching consequences" which are not easy to predict.

But, as an example, he said "younger officers trained or in training in the various fields of engineering, science, or business management, realizing that they might not be able to seek gainful employment upon retirement from military service, might wish to resign from the service at an early age to further their personal careers within industry in the respective technical or business management fields in which they have demonstrated capability."

Also, officers "in the middle age and senior groups now performing valuable service in the areas of research, development, procurement, and production of items of military equipment, knowing that under the present system they face retirement at a comparatively early age and knowing further that there were perhaps special prohibitions against their employment by industry for a specific 'cooling off' period following retirement, would have, in my opinion at least, a normal and natural tendency to shy away from such service assignments as might preclude their later association with industry in the very specialties in which they are best qualified," he said.

Space-Share Conference Held In Colorado

Twenty-five top scientists and Air Force officers associated with the fields of astronautics and space research met at the U. S. Air Force Academy for a special Space-Share Conference 10-14 August, it is reported by Lt. Col. Robert E. Collier, Assistant Professor of Astronautics.

The meeting was sponsored by the Academy's Department of Astronautics, the Air Force Special Weapons Center at Kirtland AFB, N. M., and Convair of San Diego.

Main theme of the conference will be, "The Peaceful Use of Atomic Energy in Space."

Those invited to attend the Space-Share Conference were: Lt. Col. Fred A. Gross, Jr., Deputy Chief, Physics Division, Air Force Special Weapons Center, Kirtland AFB, N. M.; Dr. John W. Bond, Jr., Chief of Physics, Convair, San Diego; Dr. Harris Mayer, E. H. Plesset Associates, Inc., Los Angeles; Professor Kenneth M. Watson, Physics Department, University of California, Berkeley; Dr. George Bing, Lawrence Radiation Laboratory, Livermore, Calif.; Professor Keith A. Brueckner, Department of Physics, University of Pennsylvania, Philadelphia.

Professor Marvin L. Goldberger, Princeton University, N. J.; Dr. Rolf Landshoff, Lockheed Aircraft Corp., Sunnyvale, Calif.; Dr. Harold C. Urey, University of California, La Jolla; Professor Wilmut N. Hess, University of California, Berkeley; Dr. George Stuart, General Atomic, San Diego; Dr. Robert Jastrow, National Aeronautics and Space Administration, Washington, D. C.; Dr. Marshall Rosenbluth, General Atomic, San Diego.

Doctor Louis Henyey, Astronomy Department, University of California, Berkeley; Dr. A. L. Latter, RAND Corporation, Santa Monica, Calif.; Dr. Daniel A. Hamlin, Physics Section, Convair, San Diego; Maj. Lew Allen, Air Force Special Weapons Center, Kirtland AFB; Dr. Phil Newmann, Air Force Cambridge Research Center, Bedford, Mass.; Dr. Richard Latter, RAND Corporation, Santa Monica; Professor Fred Whipple, Harvard College Observatory, Cambridge, Mass.; Dr. Andrew Skumanich, Los Alamos Scientific Laboratory, N. M.; Dr. Burton Freeman, General Atomic, San Diego; Dr. Ward Low, Institute for Defense Analysis, Washington, D. C.; Dr. Bernard Lippman and Dr. Thomas Wainwright of the Lawrence Radiation Laboratory, Livermore.

INDUSTRY IN DEFENSE

North American Aviation Presents Flatley Award

RADM. Joseph M. Carson, Chief of Naval Air Basic Training, center, Pensacola, Fla., with R. E. Walker, Assistant General Manager of North American Aviation Company's Columbus, Ohio, plant, and Capt. C. H. Turner, Commanding Officer of the carrier Antietam (CVS-36), are shown at ceremonies where the admiral presented the Antietam with the Admiral Flatley Memorial Award.

The award, the Navy's newest, was presented to the carrier for its safe aircraft carrier operations during fiscal year 1959. There were 19,966 landings aboard the Antietam without a major accident. The North American Aviation Co. sponsored the award, named after the late VAdm. James H. Flatley, who was associated with naval aviation throughout his naval career. He played a vital part in the Navy's aircraft carrier safety and accident prevention program and was one of the early directors of the Naval Aviation Safety Center.

Sperry Reveals Work On Zeus Transmitter

Sperry Gyroscope Co. has revealed that it has been working for almost two years on development of a high-powered target tracking radar transmitter for the NIKE-ZEUS anti-missile missile under a \$4 million R & D contract with the Bell Telephone Laboratories.

The radar is used for tracking an incoming missile to obtain data needed for automatically directing the missile against the target.

The Army Ordnance Missile Command is directing the development of Zeus, with the Western Electric Company as prime contractor.

Gen. Taylor Joins Calvin Bullock Ltd.

General Maxwell Taylor, former Army CoFS, has been elected to the boards of directors of four investment companies managed by Calvin Bullock, Ltd.

Hugh Bullock, President, said the companies are Bullock Fund, Ltd., Dividend Shares, Inc., and Nation-Wide Securities Company, Inc., open end funds; and Carriers & General Corporation, a closed end investment company.

Welcoming General Taylor to the boards of directors, Mr. Bullock said:

"He brings to us four decades of experience as a military officer together with many years as a leader in global military, political and economic affairs, and he places his knowledge of human affairs at the disposal of our shareholders. We are fortunate in obtaining his counsel."

Calvin Bullock manages six investment companies whose total net assets exceed \$500 million.

Lycoming 'Copter Engine Passes 50-Hour Test

Successful completion and acceptance by the Air Force and Army of the 50-hour preliminary flight rating test for the T55-L3 helicopter engine is reported by Avco Corporation's Lycoming Division at Stratford, Conn.

This makes the T55, in both helicopter and turboprop versions, the most powerful free power turbine developed in the United States to successfully reach this milestone, according to a company announcement.

Top NDTA Award Goes To LeTourneau President

Robert G. LeTourneau, President, R. G. LeTourneau, Inc., of Longview, Tex., will receive the 10th annual National Defense Transportation Association's Award as the person "whose achievement contributed most to the effectiveness of the transportation industry in support of national security."

Presentation will be made at the Association's Annual Dinner at the Olympic Hotel in Seattle on 14 October.

The National Defense Transportation Association is a military-civilian group of transportation leaders whose annual Award was established in the interest of promoting transportation preparedness and fostering a keener realization of military transportation requirements.

Fruehauf Expands Military Division

The Military Equipment Division of Fruehauf Trailer Company has occupied new quarters in Detroit.

Mr. E. R. Neumann, Division Director, said that the move to a large separate building which now houses administrative, engineering, research and development departments consolidates the efforts of the Division to provide increased service to military requirements.

Fruehauf's Military Equipment Division participates in a variety of ground handling projects, including containers, transporters and launchers for many type of missiles. Besides the new main office headquarters in Detroit, the Division includes production facilities in Delphos, Ohio, Fort Wayne, Ind. and Los Angeles, and regional offices in New York City and Los Angeles.

AF Awards \$73 Million To AVCO For Nose Cone

The Air Force has awarded a contract for \$73.3 million to the Research and Advanced Development Division of AVCO Corporation for an advanced design re-entry vehicle nose cone for the Titan ICBM.

The Pentagon said, "The new Titan nose cone contract will include designing a different aerodynamic shape that will permit faster atmospheric re-entry to nullify missile defenses. Development of materials that can tolerate greater heating and an extensive program to improve reliability of sub-systems are also included in the advanced task."

Secretary McElroy Stresses Industry's Right To Tell Public Of Defense Competence

SECRETARY of Defense McElroy—undoubtedly the Administration's top authority on advertising by virtue of his experience as head of Procter & Gamble—has given support to efforts of defense manufacturers to tell their story to the American public.

The Secretary was questioned at his last news conference concerning a suggestion made by a member of the House of Representatives that firms be prohibited from advertising weapons achievements.

The Secretary said: "I don't believe it would be appropriate, at least in my opinion, to question a company's right to put before the American people its competence as a supplier of high-grade military products as an evidence of its importance as a good citizen of the United States."

Secretary McElroy recalled that during WWII a number of companies, including his own, were faced with a decision as to whether they should advertise products that were not in abundant supply. "I know," he said, "that the companies felt that they should continue for reasons of expecting that they would be back in business once the war was concluded."

The Pentagon chief told newsmen that there could be questions asked about certain defense advertising, but he made it plain that he was opposed to any advertising ban on weapons work.

Ryan Wins AF Vertifan Contract

Ryan Aeronautical Company's new "Vertifan" concept of combining vertical take-off and landing characteristics with high speed forward flight has been recognized by the Air Force with award of a preliminary aircraft design study contract.

T. Claude Ryan, President, said in San Diego that principles of the Ryan Vertifan system have been under development since 1955 with the company's own funds, "as part of its broad pioneering in various phases of VTOL (vertical take-off and landing) and STOL (short field take-off and landing) aircraft research."

The General Electric Company will work with Ryan on the new program.

This system's distinctive feature is a fan, or set of fans depending on configuration of the plane, horizontally "submerged" within the wing and powered by a tip turbine, driven by the jet engine exhaust, to provide the lift for vertical take-off and hovering. In normal horizontal cruise, the power of the jet engine is diverted from the fans to straight thrust. The Vertifan system is applicable for use in conventional jet aircraft.

The jet engine serves a dual function. It provides conventional jet thrust for normal flight, and furnishes exhaust gases which are conducted to the fan by means of a thin curving pipe, or "scroll" into a turbine mounted on the periphery of the fan.

Above and below the fan, mounted on the upper and lower surfaces of the wing, are moveable shutter-like vanes which deflect the mass flow of air from the fan whirling at high speeds.

For vertical take-off and hovering, the

vanes would be in a vertical position. For forward flight, the upper vanes would slant forward and the lower vanes would slant aft, deflecting the slipstream during transition from vertical to horizontal flight.

When the pure jet operation goes into effect for high speed forward flight, the upper and lower vanes are closed to produce a smooth wing surface, and a valve diverts the exhaust from the fan, directing it aft through the tail pipe nozzle.

For landing, the upper and lower vanes would open and slant forward to give a decelerating force, and would be moved to the vertical position as the aircraft's speed drops to zero.

Control and added lift would be given the plane by a small fan submerged in the horizontal tail.

The Vertifan concept is the latest in a series of Ryan VTOL developments. The Ryan X-13 Vertijet, built for the Air Force, was the world's first pure jet vertical take-off and landing aircraft. It was successfully flown in an extensive testing program at Edwards AFB, Calif., and was demonstrated before high-ranking Pentagon officials and members of Congress in spectacular flights in Washington, D. C.

Currently in a test program for the Army and the Office of Naval Research is the Ryan Model 92 Vertiplane, an aircraft of conventional configuration, powered by a gas turbine engine, and equipped with double, retractable wing flaps extending far below and to the rear of the wing trailing edge. The slipstream from two large propellers is deflected by these flaps to provide vertical lift while the plane is in a horizontal position.

Navy Awards Contracts For Missile Destroyers

The New York Shipbuilding Corporation, Camden, N. J., and Avondale Marine Ways, Inc., Avondale, La., have received fixed-price contracts to construct five guided missile destroyers designed to fire the Tartar guided missile.

RADM. R. K. James, Chief of the Bureau of Ships, said New York Ship will construct three of the guided missile destroyers. The Avondale contract is for two destroyers.

Twelve firms were invited to submit proposals and nine responded.

In addition to Tartar missiles, these ships will be equipped with the most recently developed long range sonar equipment and long range ASW weapons which will give them an increased anti-submarine capability. They will have two five-inch rapid fire guns for use against enemy surface craft and for shore bombardment. They will support amphibious operations, assist hunter-killer groups in attacking submarines and aid in protecting vital ocean convoys.

The ships will have a length overall of 431 feet and a beam of 47 feet. DDG's are designed to operate with attack carriers in carrier task force operations.

W. A. Laukaitis Named Maxson D.C. Sales Mgr.

Walter A. Laukaitis has been appointed Manager, Washington, D. C., Sales by the W. L. Maxson Corporation. Also announced were the appointments of Anthony R. Pignoni as Manager, Eastern Sales and Eugene J. Cronin as Manager, Special Projects. All three were previously District Sales Representatives with the Maxson firm which specializes in research, development and production of airborne, missile, and ordnance components and systems.

Laukaitis is a former Air Force officer and also served in a civilian technical capacity with the Navy.

Heads Central Traffic

Col. Joshua R. Messersmith has assumed command of the Central Traffic Region, Military Traffic Management Agency, with headquarters in the Mart Building, St. Louis. He succeeded Col. E. D. K. Hoehne who reported to Washington, D. C.

New Info Chief at Niagara

Capt. Lewis M. Jost, former Executive Officer of the Information Office, U.S. Army Pacific, Ft. Shafter, Honolulu, has been assigned as Information Officer at Ft. Niagara, N. Y.

Bendix Official Tells Eagle Participants

Dr. R. D. O'Neal, General Manager of the Bendix Systems Division which holds the prime contract for the development of the Navy's Eagle missile system, has announced that the following companies are included with Bendix on the project: Grumman Aircraft Engineering Corporation, Bethpage, L. I., N. Y.; Sanders Associates, Inc., Nashua, N. H.; Litton Industries, Beverly Hills, Calif.; Air Arm division of the Westinghouse Corporation, Baltimore, Md.

Two other Bendix divisions also are working on the Eagle project. They are the Research Laboratories Division, Detroit, which will develop electronic guidance equipment; and the Bendix Pacific division, North Hollywood, Calif., which will design and produce subsystems and perform missile assembly and tests.

Grumman is the major subcontractor and will be responsible for the airframe and propulsion system, and will also develop the missile's launching system and some of the ground handling equipment.

Sanders Associates has been awarded a contract to design the "seeker"—a part of the missile that will provide data needed to "home" on a target.

Litton Industries will be responsible for the development of a tactical computer to maintain the maximum effectiveness of the system. The development of this electronic "brain" will be handled by Litton's Electronics Equipment division.

The Air Arm division of Westinghouse will supply an airborne intercept radar for detecting and tracking targets. It supplies information to the tactical computer.

"Eagle represents a completely new generation of air-to-air missiles," Dr. O'Neal said. "It will be fired from an aircraft at long ranges against enemy aircraft and aerodynamic guided missiles. The Eagle will be designed both for maximum efficiency and lowest cost."

VADM. J. T. Hayward, Deputy Chief of Naval Operations for Research and Development, said the name "Missileer" has been given to the aircraft to carry the Eagle.

"By emphasizing the performance of the missile," Admiral Hayward said, "we hope to hold down costs and complexity of the airplane. With the missile-airplane combination of the Eagle and the Missileer, we will be able to extend our range of air defense. We are approaching the limits in aircraft that can operate from carriers. We are contemplating a subsonic turbo-prop or turbo-fan aircraft which will have a lower performance but longer endurance."

The name of the manufacturer of the Missileer has not been announced.

Honeywell Will Supply Lockheed F-104 Autopilots

Minneapolis—Honeywell Regulator Company has received authorization from Lockheed Aircraft Corporation to develop and produce an automatic flight control system for the F-104 fighters that have been purchased by the West German government.

C. L. Davis, Vice President and General Manager of Honeywell's Aeronautical Division in Minneapolis, said the company was named after joint consideration by Lockheed, the German Defense Ministry and the German Air Force.

The flight control system will be of the linear type, he added.

Initially, production will be carried out in the U. S. Later, an undetermined number of the systems will be produced by Honeywell's German subsidiary—Honeywell G.m.b.h., in Frankfurt, Mr. Davis said. The subsidiary now is manufacturing precision instrumentation for German industry.

Although this will be the first time Honeywell has produced an automatic flight control system for a German aircraft, the company has manufactured autopilots and bombing systems for the air forces of Canada, Great Britain, and other NATO nations.

RAYTHEON RECEIVES "HOT" AF CONTRACT

The Air Force has awarded Raytheon Company an initial study contract on conversion of microwave energy into heat energy to keep sky-stations hovering miles above the earth for weeks at a time. The six-month study, funded for approximately \$90,000, is sponsored by the Wright Air Development Center, Wright-Patterson AFB, Ohio.

It is the first military funding supporting the electronics company's recently announced proposal to develop a platform which would be kept aloft with power supplied by "weightless fuel"—microwave energy—free of connecting wires. Microwave power—in the form of high frequency radio waves—would be furnished by Amplatron power tubes. The waves would be beamed skyward in narrow "searchlight" paths from powerful transmitters on earth.

"Admirals" For Air Force And Army

Several thousand Admiral Dual Temp refrigerators have been ordered by the General Services Administration for Air Force bases in Pacific Ocean area, California and Florida.

James R. Oberly, Vice President—Appliance Division, said this is probably the largest order ever placed by a government agency for two temperature refrigerators which never require defrosting. He said a large percentage of the order will be produced in three different colors at no additional cost.

Mr. Oberly also announced receipt of an order from Army Quartermaster Corps for nearly 1,700 automatic defrosting Admiral refrigerators, scheduled for production and shipment in September.

Lear Names Steier As Corporate PR Head

Appointment of Mr. Henry P. Steier as Corporate Director of Public Relations for Lear, Inc., is announced by Mr. James L. Anast, President.

Mr. Steier will be responsible for planning and directing public relations activities for the executive offices and divisions of the corporation. The new post, Mr. Anast said, was created as part of the Lear program to achieve management's policy goals and expansion of information services for shareholders and customers.

Before joining the Lear Company, Mr. Steier was Special Assistant for Technical Information to Mr. E. R. Quesada, Administrator, Federal Aviation Agency.

FMC Names Manager For New Army Project

Food Machinery and Chemical Corporation has appointed R. H. F. Dade as General Manager of the Chemical facility it will design, construct and operate for the Army Chemical Corps at Newport, Indiana.

The contract for the Newport facility totals \$13.2 million is for a two-year period.

Army Consultant Is Research V.P.

Dr. Finn J. Larsen has been named to the newly created post of Vice President in charge of Research for Minneapolis-Honeywell Regulator Company, Minneapolis.

He has been Honeywell's Director of Research since 1953.

As corporate Vice President, Dr. Larsen will continue to direct activities of Honeywell's central research laboratories in Minneapolis and, in addition, will provide research program guidance for all company divisions on a corporate-wide basis, said Paul B. Wishart, M-H president.

Dr. Larsen joined Honeywell after receiving his Ph. D. in 1948 from Iowa State College, where he was an instructor in physics.

Among his many scientific activities, he represents Honeywell in the Industrial Research Institute, is scientific consultant to the Army Ballistic Research Laboratories, Aberdeen (Md.) Proving Ground; a member of the Army Signal Corps Research and Development Advisory Council, and a member of the Maritime Research Advisory Committee of the National Academy of Sciences.

General Bradley Reports Changes At Bulova

An Army and Air Corps veteran, Harry B. Henshel, has been named President of Bulova Watch Company.

Board Chairman General of the Army Omar N. Bradley said Mr. Henshel will succeed John H. Ballard, retiring after 50 years with the company in which he rose from a \$4-a-week office boy to become president in 1935. Mr. Ballard will continue as a member of the board.

Mr. Henshel joined Bulova in 1938. He was made Executive Vice President in 1958.

Graduated from Brown University in 1940, Mr. Henshel spent five years in the Armed Forces during WWII with the 329th Field Artillery Battalion of the 85th Division and later the Air Corps. Following this he was graduated from the Army Command and General Staff School in 1945, and from the Harvard Graduate School of Business Administration in 1951.

Former Marine Is Director

A Marine Corps veteran, Mr. John L. Weinberg, partner in Goldman, Sachs & Co., New York investment firm, has been elected to the Bulova board, it is announced by General Bradley.

G. J. Lynch Is Ford VP

Gerald J. Lynch has been elected a Vice President of Ford Motor Company, it is announced by Mr. Ernest R. Breech, Chairman of the Board of Directors.

Mr. Lynch is General Manager of Aeronutronic, which was established as a company division 1 July when Aeronutronic Systems, Inc., was merged with Ford.

Aeronutronic activities involve developing and manufacturing advanced military and commercial products in the fields of weapon and space systems, missile range system and instrumentation, electronics, data processing systems and computers. Operations are located on the west coast.

Signal Lab Names Dr. Ziegler Chief

Dr. Hans K. Ziegler, recognized as one of the world's leading authorities on satellite instrumentation and communications, has been named Chief Scientist at the Army Signal Research and Development Laboratory, Ft. Monmouth, N. J.

Creation of the position and appointment of Dr. Ziegler was announced by Col. Harold McD. Brown, Laboratory Commander.

Dr. Ziegler, 48, had served as Director of the Astro-Electronics Division since it was set up last January by the Laboratory to consolidate work on all national space projects assigned to the Army Signal Corps.

He was Assistant Research Director prior to creation of the Astro-Electronics Division. He served earlier as Scientific Consultant to the Chief of the Power Sources Division.

Born in Munich, Germany, Dr. Ziegler came to the United States in 1947 under the auspices of "Operation Paperclip" to accept a position in the Signal Laboratory. He has been a United States citizen since 1954.

ITT's Digicom Speeds Battle Communications

An all-digital communication and switching system—called DIGICOM—that automatically by-passes battle-damaged lines and re-routes messages was shown by International Telephone and Telegraph Corporation.

The "ultra-reliable" switching facility, which handles information from computers, radar, analog signals, teleprinters, tape-readers, voice and telemetering systems, was designed by ITT Laboratories at Nutley, N. J., in cooperation with the Army Signal Research and Development Laboratory, Ft. Monmouth, N. J.

Army Association convention participants were told that DIGICOM makes telephone messages virtually immune to interference by transmitting speech signals in the form of electrical pulses which are reconverted into audible messages at their destination. The conversion method is known as Delta Pulse Code Modulation, on which ITT has basic patents.

The system, conceived to complement military strategy calling for Pentomic army divisions to fight widely dispersed battles in which speed, maneuverability, and most important, reliable communications will be decisive factors, may be incorporated into the Army's new tactical plan for laying battlefield communication lines throughout the combat area.

When placed at points on the connecting main circuits or trunk lines, DIGICOM acts as an electronic switchboard, automatically seeking out the fastest message path from originating point to destination. Should one or several trunks become inoperative, DIGICOM will simply by-pass the damaged section and re-route the message, using another trunk in the system.

Possible message paths are proportionately increased as more main trunks are fed into the overall system. In older communication arrangements, damage to a main trunk meant loss of contact below the break, a situation that could mean disaster in battle.

By use of novel methods enabling many messages to "share" the same line, the switching equipment has reduced the number of crosspoints or connections necessary to carry on 48 simultaneous conversations through each DIGICOM unit from nearly 10,000 to less than 500. This "time-sharing" concept has also reduced the number of wire-pairs necessary for each group of 24 phones from 48 to two.

Designed to operate from a light trailer that could be jeep-mounted for complete mobility, each DIGICOM unit is completely transistorized and operates on less than 30 watts of power. By comparison, a table-top television set requires 175 watts.

DIGICOM is a digital, as opposed to an analog (standard telephone) system; the audio signal is automatically coded and transmitted as a pattern of pulses, the presence or absence of each pulse constituting the information carrier. In standard telephone systems, a continuously varying voltage carries the message as an analogy of the audio signal.

A commonplace comparison can be made with standard automobile equipment. The speedometer, analog computer, measures speed, a continuously varying quantity. The mileage indicator, on the other hand, is a digital computer, numerically recording distance travelled.

Hoffman Labs Publish Field Service Brochure

An illustrated brochure describing the field service capabilities of Hoffman Electronics Corporation's Laboratories Division is now available to the Services and Industry, according to a company announcement.

The booklet outlines services Hoffman offers on a world-wide basis in the areas of field engineering, overhaul and repair, test equipment, standards, training and medical electronics.

The booklet may be obtained by writing Field Services, Laboratories Division, Hoffman Electronics Corporation, 3740 S. Grand Ave., Los Angeles.

RAISES PAY QUESTION:**Senator Douglas Attacks Service Commissaries; Deplores Use Of "Grocery Clerks"**

Senator Paul H. Douglas (D-Ill.) has added Service commissaries to the list of "unnecessary frills" with which he thinks the Armed Forces are overstocked.

The Chairman of the Joint Congressional Economic Committee says he is concerned about "military fat and waste." During the current session of Congress he has hit at the Services for having too many limousines and for giving free plane rides to "influential" civilians. He also has assailed alleged "influence peddling" by retired military officers working for Defense industries.

In his latest attack, made on the Senate floor 11 August, Senator Douglas says he sees "no reason why the Defense De-

partment should be in the grocery business."

The operation of Service commissaries "represents a subsidy to military personnel within the continental limits of the United States of an amount in the neighborhood of \$45 to \$50 million per year," he said. "And this subsidy does not go to the men in the ranks, who ordinarily eat in the mess halls, but in large part to those of higher rank who live off the base."

Perhaps the "worst effect," he said, is that more than half of the employees of the commissaries are military personnel. He told the Senate: "At the very time when the President is unwilling to

keep the Marine Corps at 200,000 men and the Army at 900,000 men, so that we may have an adequate combat force to fight brush fire wars, almost 5,000 military personnel are acting as grocery store clerks."

Under current law and regulations, Senator Douglas noted, the Services may establish commissaries within the continental U.S. only when the Service Secretary certifies that there are no adequate commercial facilities conveniently available to the post, and which sell at reasonable prices.

This rule "has not only been most liberally interpreted," he said, "but has, in fact, been grossly violated."

The Senator said there currently are 914,247 commissary permit holders of whom only 169,730 "or 18.5%" live on post. He said he personally knows of individuals "who have a permit at Ft. Myer, Va., for example, who live as far as eight to ten miles from Ft. Myer and have access to literally dozens of stores which are closer to them than the Ft. Myer commissary."

"This," he said, "indicates that a farce has been made of the law and the intent of the law."

Of the 269 commissary stores or exchange groceries operated by the Armed Forces this year, Senator Douglas said 73 are Army, 51 Navy, 11 Marine Corps and 134 Air Force.

Operation of the commissaries, he said, "is perhaps the most glaring example of an area where the Government competes quite unnecessarily with private enterprise."

Senator Douglas said he believes the Armed Services should receive "adequate pay and allowances" but "this should be done through the pay system." If they are inadequately paid and do not receive enough to compensate them for their food and rent, then the Defense Department should recommend that Congress raise military pay and allowances, he said.

BuWeapons Bill Reaches White House

Congress completed action this week on legislation establishing a Bureau of Naval Weapons and sent the measure to the White House for the President's signature.

Under the terms of the new law, two Navy Bureaus (Aeronautics and Ordnance) will be disestablished on 1 January and combined into the new Weapons Bureau.

Flag Nominees Get New Billets

Two Navy captains nominated for promotion to rear admiral have received orders to new assignments.

Capt. Andrew J. Hill, jr., will become Commander Service Squadron THREE. He relieves RAdm. John A. Tyree, jr., already assigned as Commander Naval Forces Korea.

Capt. William B. Sieglaff will be Deputy CofS (Intelligence) on the staff of the Commander in Chief, Allied Forces, Mediterranean. He relieves RAdm. Richard H. Phillips, whose new duty has not been announced.

Captain Hill has been Commanding Officer, Administrative Command, Naval Training Center, San Diego. Captain Sieglaff is in the Office of the Chief of Naval Operations, Washington, D. C.

Both begin their new duties this month.

Maj. Apgar In Campus Post

Maj. Harry E. Apgar jr. has arrived in Deland, Fla. to assume command of the ROTC at Stetson University when Maj. Malcolm D. Brannen leaves this fall for another assignment.

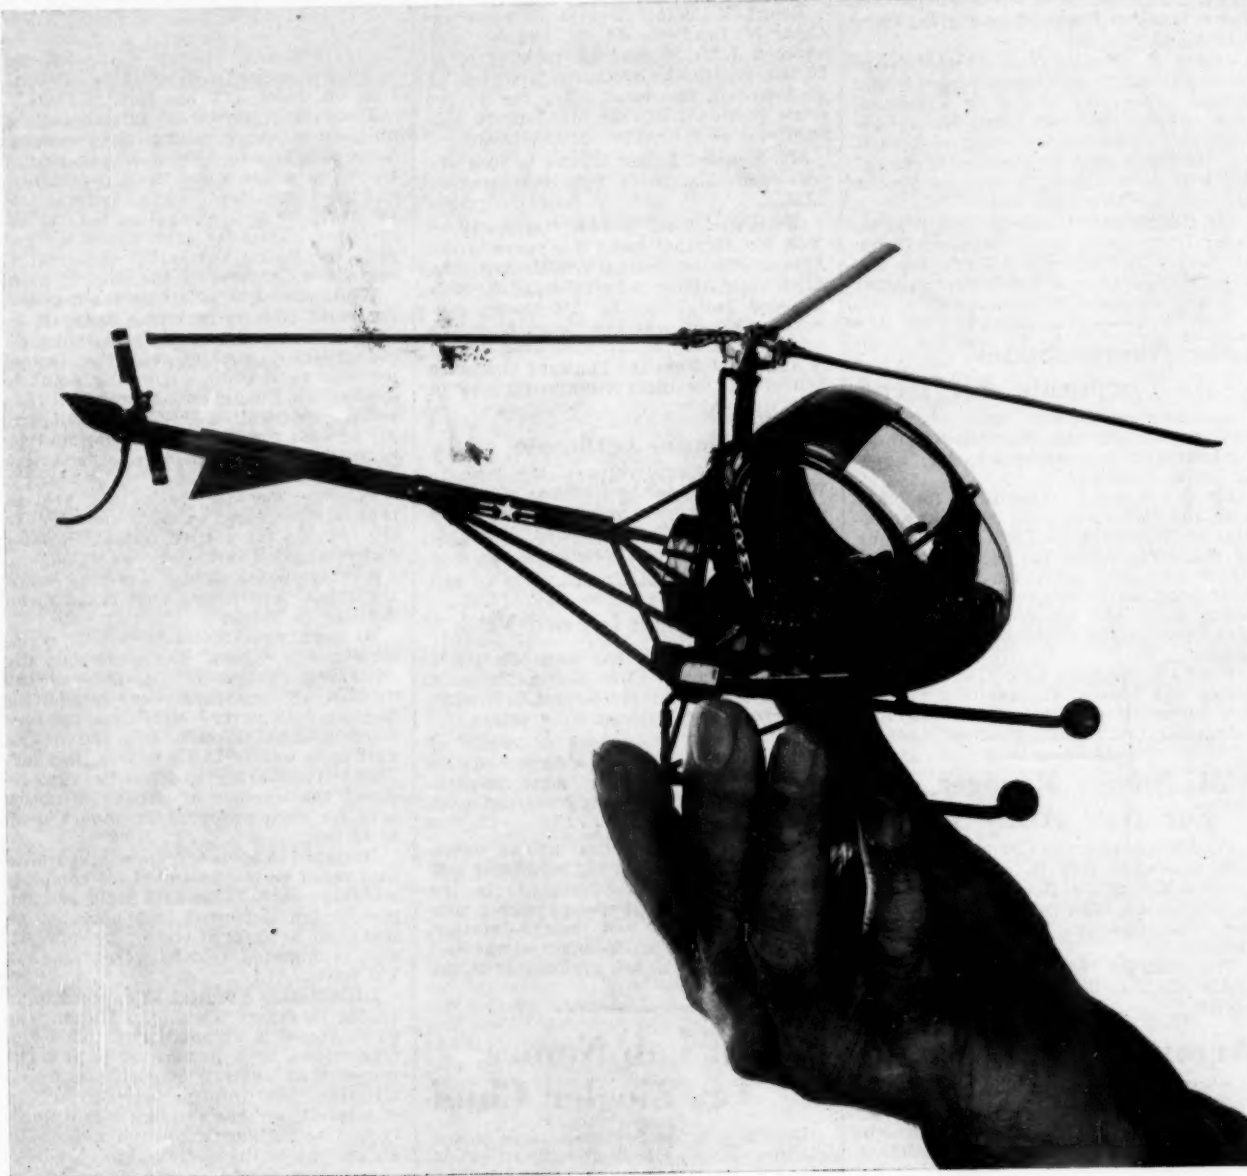

Maj. Apgar has just completed a tour of duty at headquarters of the US Army in Europe, Heidelberg, where he handled the assignment of Army officers in Europe.

Maj. Apgar and his wife, Helen, are living at 515 North High Street, Deland. They have two sons, Robert F., 12, and William C., 9.

Phair Joins G-2 Section

Lt. Col. Tom S. Phair has been assigned to the First Army G-2 Section as Chief of the Adjudications Branch at Governors Island, N. Y. He recently returned from a second tour in Korea where he was G-2 of the Seventh Division.

Col. and Mrs. Phair and their 12-year-old son, Tom S., jr., are living at 91 Ellwood Place, Staten Island, N. Y.

**a chopper on hand is worth two in the pool**

Parked right by his tent, immediately available for use... a helicopter for observation and liaison must be organic to the Company Commander's field operations in today's Pentomic Army.

The Hughes YHO-2HU is the first helicopter fully functional for Company-level operations. Easy on fuel... ruggedly built... this unique, 2-place helicopter reduces the logistics problem. It

requires no special tools for field maintenance and few spare parts. Most maintenance can be done within the Company.

Major components—the engine, rotor systems, multiple belt drive clutch—can be removed and reinstalled as independent assemblies... in minutes!

The YHO-2HU is thoroughly evaluated and ready for procurement.

THE YHO-2HU COSTS HALF AS MUCH TO BUY—HALF AS MUCH TO USE—AND IS EXACTLY WHAT THE ARMY ASKED FOR!
